Qualified electors of this state enlisted in companies or regiments organized in this state and absent from their election precincts on the day prescribed by law for the holding of any general election because engaged in the actual military service of the state or of the United States shall be entitled to vote for all state officers and on all state-wide questions in any such election. The qualified electors of any such company or regiment shall vote as a group or unit. The commanding officer of any such company or regiment shall, in his discretion, fix the number of polling places for any such election.

Thirty days before any such election the adjutant-general shall furnish the secretary of state with a register containing the names and addresses of all qualified electors enlisted in companies or regiments organized in this state and absent from their election precincts because engaged in the actual military service of the state or of the United States.

The secretary of state shall, as soon as possible after the nominations for the various state offices shall have been made, prepare official war ballots in such number as shall be necessary to supply such absent voters. Such ballots shall be sent to the commanding officer of any such absent company or regiment, together with the registry of such absent voters prepared from the report of the adjutant-general to the secretary of state. Such ballots shall contain only the names of the candidates for state offices. If, at any such election, any proposed amendment to the constitution or other proposition or question is to be submitted to the voters of the state, the secretary of state shall furnish in the form prescribed by law an equal number of ballots for the question or questions so submitted.

The secretary of state shall also cause to be prepared and printed at least twice as many official envelopes as there are voters absent from election districts, as shown by such register. Such envelopes shall be gummed, ready for sealing. Upon one side of the envelope shall be printed indorsements in substantially the following form:

"Official War Ballot for General Election.
November....., 19....
Name of voter.....
Residence (street and number, if any).....
County of.....
City or town of.....
.....
"Secretary of State."

Upon the other side of the envelope shall be printed an affidavit that the voter is a duly qualified elector in Illinois.

The secretary of state shall also furnish poll books and necessary poll lists, tally sheets, copies of this law, and any and all other blanks and forms necessary for the conduct of such election.

Elections in the camps shall be held not less than five nor more than twenty days prior to

the general election day. The date of such election shall be fixed by the commanding officer of any command where the poll or polls of such election shall be held, by proclamation. Such polls shall be opened at such hour of the day as shall be most convenient for such voters, and shall remain open not less than three hours, and as much longer as shall, in the opinion of the officers of election serving at such polls, be necessary in order to receive the votes of all voters of this state entitled to vote, but no poll shall be kept open later than sunset of the day on which the election shall be held.

At the hour and place for the opening of the polls, the qualified voters of this state then present shall, by a viva voce vote, select three of their own number to act at such election as judges of election. Such judges shall, so far as possible, be so selected that they shall represent the leading political parties of this state. When so elected, they shall choose one of their number as chairman and another as clerk by drawing lots. Such chairman shall then administer the oath of office to the other judges, and one of the judges shall then administer the same to the chairman.

Before any person shall receive an official ballot or be permitted to vote, he shall make and subscribe the oath printed upon the official envelope, and any one of the judges of election is hereby authorized to administer such oath. If any voter shall refuse to take the oath he shall not be allowed to vote. Upon subscribing to the required oath the voter shall state his name and residence by street and number, if any, county, city or town, which information shall be entered upon the poll books. When such voter has given such information the judge in charge of the polls and envelopes shall write in the proper blank spaces upon the envelope the name and residence, by street and number, if any, of such voter, and the county, city or town in which he claims to reside, and shall deliver such ballot or ballots and such envelope to the voter. Such voter shall then retire to some convenient place and shall prepare his ballot in the usual way. After preparing his ballot the voter shall fold his ballot in such a way that the contents of the ballot shall be concealed, and inclose the same in such envelope, which he shall securely seal. He shall then deliver such envelope to the chairman of the board of judges. Before such envelope shall be deposited in the ballot box the chairman shall state the name of such voter, his residence, whether or not he is entitled to vote and whether or not the envelope is securely sealed. If the voter's name and other information hereby required appear upon the poll books, the judges keeping such poll books shall so announce and record such voter as voting. The chairman shall thereupon deposit such envelope in the ballot box.

As soon as the polls of such election are closed, the judges shall publicly destroy all official envelopes and ballots not voted and shall then publicly open such ballot boxes and count and ascertain the number of voters voting, and shall not adjourn or postpone the count until it shall have been fully completed.

At the completion of the count the judges shall certify the correctness of the same upon the poll books, and shall publicly announce the number of votes cast. They shall, thereupon, inclose all such envelopes containing ballots, without opening the same, in a sealed package, with the poll books, and shall forward them to the secretary of state at Springfield, Ill., as soon as possible after such election.

Upon the receipt by the secretary of state of the packages containing the envelopes and poll books he shall at once forward such envelopes to the county clerk of the respective counties wherein reside such voters absent in military service. Each county clerk shall deliver all envelopes so received from the secretary of state to the county canvassing board at the time of its regular meeting, and such board shall count

all the ballots inclosed in such envelopes and make abstracts of the same, which abstracts shall be sent to the secretary of state, to be canvassed in the manner provided by law for the canvassing of other votes. (Approved June 22, 1917.)

BOARDS OF EDUCATION.

Each city having a population exceeding 100,000 inhabitants shall constitute one school district which shall maintain a thorough and efficient system of free schools, which shall be under the charge of a board of education. The board shall consist of eleven members, to be appointed by the mayor, with the approval of the city council, three of whom shall be appointed for the term of one year, two for two years, two for three years, two for four years and two for five years. Thereafter, at the expiration of the term of any member, his successor shall be appointed in like manner; and all persons thus appointed and their successors, shall hold office for the term of five years from the first day of May of the year in which they are appointed: Provided, That in such cities wherein at the time this law shall go into effect there are members of a board of education holding office by appointment, such members shall continue in their office until eleven persons have been appointed and qualified as members under this act. No power vested in such board of education, or in any of its officers, agents or employees, shall be exercised by the city council of such city.

To be eligible for appointment to the board, a person shall be at least thirty years of age and a citizen of the United States, and shall have been a resident of the city for at least five years immediately preceding his or her appointment. Members of the board shall serve without compensation. They shall not, while serving as such members, hold other public office under the federal, state or any local government other than that of notary public or member of the national guard.

The board of education shall elect annually, from its own number, a president and vice-president, in such manner and at such time as the board determines by its rules. The president shall preside at the meetings of the board and shall have the same power to vote at such meetings as any other member, but shall not have the power of veto. He shall perform such duties as shall be imposed upon him by the rules of the board. The vice-president shall perform the duties of the president in case of the president's absence or inability to act, and shall perform such other duties as may be imposed upon him by the rules of the board. The board of education shall also elect a secretary, prescribe his duties, term of office and compensation.

The board of education shall, by a vote of a majority of the full membership of the board, appoint, as executive officers, a superintendent of schools, who shall have general charge and control, subject to the approval of the board, of the education department and of the employees therein of the public schools; a business manager, who shall have general charge and control, subject to the approval of the board, of the business department and of the employees therein of the public schools; and an attorney, who shall have general charge and control, subject to the approval of the board, of the law department and the employees therein of the public school system. Each of the executive officers shall hold his office for a term of four years. The board also may appoint, or provide for the appointment of, such other officers and employees as it may deem necessary, pursuant to the provisions of the civil service law, except as otherwise provided.

The appointment and removal of superintendent of schools, the business manager and of the attorney, and all assistant attorneys, shall not be subject to the civil service law. The superintendent of schools, the business manager and the attorney shall be removed during the term of employment only for cause, by a vote of not less

than a majority of all members of the board, upon written charges to be heard by the board, after thirty days' notice, with copy of the charges, is served upon the person against whom they are preferred, who shall have the privilege of being present, together with counsel, offering evidence, and making defense thereto; but pending the hearing of such charges the person charged may by a like majority vote be suspended by the board: Provided, however, that in the event of acquittal such person shall not suffer any loss of salary by reason of the suspension. The action and decision of the board in the matter shall be final.

All appointments of other employees of the board of education shall be made pursuant to the provisions of the civil service law, and no civil service employee shall be removed except for cause. Teachers shall be exempt from the provisions of this section.

The superintendent of schools shall prescribe and control, subject to the approval of the board of education, the courses of study, text books, educational apparatus and equipment, discipline and conduct of the schools, and shall perform such other duties as the board may by rule prescribe pertaining to the education department. Appointments, promotions and transfers of teachers, principals, assistant and district superintendents, and all other employees in the teaching force, shall be made, sites shall be selected, school houses located thereon and plans for the same approved, and text books and educational apparatus and equipment shall be adopted and purchased by the board of education only upon the recommendation of the superintendent of schools, unless it be by a two-thirds vote of all the members of the board. Text books shall not be changed oftener than once in four years, except on the recommendation of the superintendent, approved by two-thirds of all the members of the board. The board shall have the power to furnish free text books to pupils whose parents are unable to buy them, and to publish its own text books and manufacture its own apparatus, equipment and supplies.

The business manager shall have general charge and control, subject to the approval of the board of education, of all purchases, the making of contracts and leases, the condemnation of sites, the erection, construction, alteration and repair of school buildings, and all other matters not coming under the control of the education or law departments.

The attorney shall have charge and control, subject to the approval of the board of education, of the law department, and of all litigation, legal questions and such other matters as shall be referred to the department by the board. Appointments, promotions and discharge of assistant attorneys shall be made by the board of education only upon the recommendation of the attorney, unless it be by a two-thirds vote of all the members of the board.

The superintendent of schools, the business manager and the attorney may be present at all meetings of the board of education, and shall have a right to take part in its discussions and deliberations, but shall have no vote.

The board of education shall exercise general supervision and management of the public education and the public school system of the city, and shall have power to make suitable provision for the establishment and maintenance throughout the year, or for such portion of the year as it may direct, not less than nine months in time, of schools of all grades and kinds, including normal schools, high schools, night schools, schools for defectives and delinquents, parental or truant schools, schools for the blind, the deaf and the crippled, schools or classes in manual training, constructural and vocational teaching, domestic arts and physical culture, vacation and extension schools and lecture courses, and all other educational courses and facilities, including playground maintenance. It shall have the power to co-operate with the juvenile courts in making arrangements with the public or quasi-public libraries and museums for the purpose of ex-

tending the privilege of such libraries and museums to teachers and pupils of the public schools. The board may grant the use of assembly halls and classrooms when not otherwise needed, including light, heat and attendants, for free public lectures, concerts and other educational and social interests, free of charge, but under such provisions and control as the board may see fit. The board shall have continuing power to divide the city into subdistricts and apportion the pupils to the several schools, but no pupils shall be excluded from or segregated in any such school on account of his or her color, race or nationality.

Appointments and promotions of teachers, principals and other educational employees shall be made for merit only, and after satisfactory service for a probationary period of three years. No teacher or principal who has been or shall be appointed by the board of education shall, after serving the probationary period of three years, be removed except for cause, and then only by a vote of not less than a majority of all members of the board, upon written charges presented by the superintendent of schools, to be heard by the board, or a duly authorized committee of the same, after thirty days' notice, with copy of the charges, is served upon the person against whom they are preferred, who shall have the privilege of being present, together with counsel, offering evidence and making defense thereto. In the event of acquittal, such person shall not suffer any loss of salary by reason of the suspension. If at any time any member of the teaching force who is willing to continue is dismissed or discharged before the time he or she would under the provisions of this act be entitled to a pension, then such member shall be paid back at once the money he or she may have contributed under this law. Any member of the teaching force who shall retire voluntarily from the service, prior to entering upon the period of service during which he or she might become entitled to a pension or benefit for or on account of disability, as provided by law, shall receive a refund of one-half of the money he or she shall have contributed under this law. (Approved April 20, 1917.)

UNIFORM TEXTBOOK LAW.

No person shall offer any school textbook for adoption, sale or exchange in the state of Illinois until he shall have complied with the following conditions:

1. He shall file, within thirty days after this act goes into effect, copies of all textbooks and annually thereafter by the fifteenth day of July copies of all additional and different textbooks and copies of all supplementary and abridged and special editions of all textbooks sold by the company manufacturing such book, in the office of the state superintendent of public instruction with a sworn statement of the usual list price, the lowest net wholesale price, and the lowest net exchange price at which said book is sold or exchanged for an old book on the same subject of like grade and kind but of a different series taken in part payment thereof.

2. He shall file with the state superintendent of public instruction a bond running to the people of the state of Illinois with a responsible surety company authorized to do business in the state of Illinois as surety thereon, in a penal sum to be determined by the state superintendent of public instruction, not less than \$2,000 nor more than \$10,000, conditioned as follows:

(a) That he will furnish for five years any of the books listed in the statement as outlined in section 1 of this act, and, for a like period, any of the additional and different books and any of the supplementary and abridged and special editions of all books listed in any annual statement subsequently filed by him within five years, to any school district and any school corporation in the state of Illinois at the lowest net prices contained in said statements and that he will maintain said prices uniformly throughout the state:

(b) That he will reduce net prices automatically in Illinois whenever reductions are

made elsewhere in the United States, and that he will file with the office of the state superintendent of public instruction a sworn statement of such reductions made elsewhere, so that at no time shall any book so filed and listed by him be sold in the state of Illinois at higher net prices than are received for such book elsewhere in the United States.

(c) That all textbooks offered for sale, adoption or exchange in the state of Illinois shall be equal in quality to those deposited in the office of the state superintendent of public instruction as regards paper, binding, print, illustrations, subject matter, and all other particulars that may affect the value of such textbooks;

(d) In case he shall prepare any supplementary or abridged or special edition of any of the books so listed by him and shall sell such editions elsewhere at a lower net wholesale price than the net wholesale price scheduled with the state superintendent, he shall file copies of any and all such editions, together with the net prices therefor, at a above stated, with the state superintendent of public instruction;

(e) He shall not enter into any understanding, agreement or combination to control the prices or to restrict competition in the sale of school textbooks.

Such bond shall be approved by the attorney-general and shall continue in force for the period of five years after its filing, at or before the expiration of which period a new bond shall be given, or the right to continue business within the state shall be forfeited.

The state superintendent of public instruction shall, within thirty days after the filing of any list and bond, send a copy of the list to the school authorities in each district in the state, and he shall annually publish and send to each school district in the state a copy of any additional lists then in force in his office.

It shall be the duty of the board of education, or the board of directors, of each district of this state wherein the textbooks listed under the provisions of this act have been adopted to notify the superintendent of public instruction of any violation of any of the conditions contained in the bond. The superintendent of public instruction shall thereupon notify the person guilty of such violation and if the person so notified shall disregard the notification and fail to comply with the requirements of the contract, then the superintendent of public instruction shall institute legal proceedings for the forfeiture of the bond of said person.

No person shall secure or attempt to secure the sale of any school textbook in any school district in this state by rewarding or promising to reward any teacher in any school in the state or by securing for him any position in any other school. No person shall offer or give any emolument, money or other valuable thing, promise of work or any other inducement to any teacher or school officer in any school district for any vote or promise of vote, or for use of his influence, for any school textbook to be used in this state.

Boards of education or boards of school directors are empowered, and it shall be their duty, to adopt such textbooks listed under the provisions of this act, needful for use in the schools, and, thereupon, shall make a record thereof in its proceedings and within thirty days thereafter shall file a copy of such record in the office of the state superintendent of public instruction, and textbooks once adopted by any board under the provisions of this act shall not be changed within five years and said books shall be used exclusively in all public high schools and elementary schools of the state for which they have been adopted, except that supplementary or abridged or special editions of such books may be used when necessary.

It shall be unlawful for any retail dealer in textbooks to sell any books listed with the state superintendent of public instruction as hereinbefore provided at a price to exceed 15 per cent advance on the net prices as so listed. Any dealer violating the provisions of this section shall be guilty of a misdemeanor, and, upon con-

viction, shall be fined not less than \$25 and not more than \$100.

School districts are hereby authorized to purchase textbooks from the publishers at the prices listed with the state superintendent of public instruction as hereinbefore provided and to sell the books to the pupils at the listed prices or at such prices as will include the cost of transportation and the cost of handling.

School districts are authorized to purchase out of the contingent funds of the district school textbooks from the publishers at the prices listed with the state superintendent of public instruction and to designate a retail dealer or dealers to act as the agent of the district in selling textbooks to pupils. The dealer or dealers shall at stated times make settlement with the district for such books as have been sold up to the stated time. The dealer or dealers shall not sell textbooks at prices which shall exceed a 10 per cent advance on the net prices as listed with the state superintendent of public instruction. Any dealer violating the provisions of this section shall be guilty of a misdemeanor, and, upon conviction, shall be fined not less than \$25 and not more than \$100.

The provisions of this act shall not prohibit or abridge the right of any school district, composed of a city having a population exceeding 100,000 inhabitants, to print, publish, distribute or sell its own textbooks. (Approved June 27, 1917.)

REAL ESTATE IMPROVEMENTS.

Any number of persons, not less than ten, all of whom shall be citizens of the United States and residents of the county in which the principal office of the company to be incorporated is to be located, may form a corporation to own lands for the purpose of improvement by the company, by the erection of residences thereon, to be sold or leased by said company.

No company organized under this act shall own any property in any county except the one in which its principal office is located and any conveyance to or any contract by such company concerning any real estate in any other county shall be void.

No company organized for the purpose of owning and improving lots therein shall hold any lot unimproved for a greater period than five years or any improved lot for a longer period than fifteen years and no lot shall be considered improved unless there is upon it a building or buildings of double the value of such a lot, nor shall any company organized under the provisions of this act at any time own, possess or hold title to unimproved lots or lands in excess of forty acres. (Became a law June 29, 1917, without the governor's signature.)

HEALTH INSURANCE COMMISSION.

A special temporary commission is created to be known as the health insurance commission, which shall investigate sickness and accident of employes and their families (not compensated by workmen's compensation in the state of Illinois), with reference to the adequacy of the present methods of preventing and meeting the losses caused by such sickness or injury, either by mutual or stock insurance companies or associations, by fraternal or other mutual benefit associations, by employers and employes jointly, by employers or employes alone, or otherwise; and further, such definite proposals for legislative measures to prevent and meet such losses as may have been proposed in this or other states; all with a view to recommending ways and means for the better protection of employes from sickness and accident and their effects and the improvement of the health of employed persons and their families in the state. The commission shall hold public hearings in different parts of the state. The commission shall submit a full final report including such recommendations for legislation by bill or otherwise as in its judgment may seem proper, to the general assembly of 1919, and unless continued by such general assembly, shall expire at the end of its regular session.

The commission shall consist of two representatives of labor, namely one representative of the male laborers, the other of the female laborers of the state, an employer of labor, a physician, a farmer, a social economist, a social worker and two other persons to be appointed by the governor. The members of such commission shall receive no compensation for their services, but shall be entitled to their actual and necessary expenses. (Approved June 23, 1917.)

STATE TAX LEVY.

There shall be raised, by levying a tax by valuation upon the assessed taxable property of the state, the following sums for the purpose hereinafter set forth: For general state purposes, to be designated "revenue fund," the sum of \$16,000,000, upon the assessed value of the property for the year A. D. 1917; \$16,000,000 upon the assessed value of the property for the year A. D. 1918, and for state school purposes to be designated "state school fund," the sum of \$4,000,000 upon the assessed taxable property for the year A. D. 1917, and the sum of \$4,000,000 upon the assessed taxable property for the year A. D. 1918, in lieu of the two mill tax. (Approved June 27, 1917.)

OTHER BILLS PASSED.

Among other bills passed by the 50th general assembly were these:

Act to prevent the introduction into and dissemination within the state of insect pests and diseases injurious to the plants and plant products of the state.

Act revising the law in relation to arbitrations and awards.

Act prohibiting unlicensed persons from receiving compensation for legal services.

Act establishing a state farm for boys more than 16 years of age.

TOTAL OF APPROPRIATIONS.

The 50th general assembly passed seventy-four appropriation bills carrying a total of \$51,581,344. The governor vetoed bills and appropriations aggregating \$1,070,243. This left the net appropriations for the entire session \$50,511,101.

DEATH OF AUGUSTE RODIN.

Auguste Rodin, the great French sculptor, died in Paris Nov. 17, 1917. Had he lived a week longer he would have been elected a member of the Academy of Fine Arts. Born in Paris in 1840, Rodin spent the first fifty years of his life in poverty and drudgery until he finally won recognition as a sculptor of extraordinary merit. Among his masterpieces may be mentioned "St. John the Baptist," "Victor Hugo," "The Burgesses of Calais," "Balzac" and the "Portal of Hell." At the tercentenary celebration of the discovery of Lake Champlain the people of France presented to the United States a bronze bust, "La France," by Rodin, which is now a part of the Champlain monument at Crown Point, N. Y.

The original town of Chicago in 1835 extended from Chicago avenue on the north to 12th street on the south and from Halsted street on the west to Lake Michigan on the east. When the city was incorporated in 1837 the city limits were as follows: From Lake Michigan west along Center street to North Clark street, south to North avenue, west to Wood street, south to 22d street and east to the lake. The largest addition to the area of the city was made in 1889, when Lake View, Jefferson, Hyde Park and Lake were annexed. Edison Park was annexed Nov. 8, 1910. Morgan Park was annexed April 7, 1914. Village of Clearing was annexed April 6, 1915 and part of the town of Stickney June 7, 1915. Parts of Norwood and Stickney were annexed Nov. 6, 1917.

WORK OF UNITED STATES CENSUS BUREAU.

The bureau of the census in the department of commerce in Washington, D. C., is charged with the duty of taking periodical censuses of the population, agriculture, manufactures and mines and quarries of the United States, together with such special statistics as are required by congress from time to time. The next general or decennial census will be taken in 1920. A census of electrical industries is taken every fifth year; the last one was taken in 1913 and consequently the next will be taken in 1918, for the statistics of 1917. Other regular censuses include:

Wealth, debt and taxation; taken every tenth year; latest statistics are for fiscal year ending June 30, 1913.

Manufacturing industries; taken every fifth year; last report related to calendar year 1914.

Agriculture; taken at ten-year intervals; last census was taken late in fall of 1915 and related to the crops of that year.

Religious bodies; taken every tenth year; last census was taken in 1916.

Water transportation on coast and inland waters of the United States; taken every tenth year; last census covered the year 1916.

The annual reports issued by the bureau include mortality and birth statistics; financial statistics of cities with a population of 30,000 or more; statistics relating to cotton production and consumption and statistics showing the amount of tobacco of various kinds on hand on April 1 and Oct. 1 of each year.

Special reports issued include studies of racial classes of population; population of metropolitan districts; Indian population; negro population; supplementary occupation statistics, embracing occupations of adults and children, occupations of women, occupations of children, occupations of the foreign born, and unemployment; fecundity of women; general statistics of cities; statistical atlas; plantation study in the southern states; age of the farmer in relation to tenure and size of farm, stability of farm population; inmates of institutions (prisoners and juvenile delinquents, paupers in almshouses, insane and feeble-minded), the blind and the deaf, and special monographs.

NEW WIRELESS RECORD.

The world's record for long distance communication by wireless was broken Sept. 29, 1917, when messages were exchanged between the United States navy radio stations at Hono-

lulu, H. I., and Sayville, L. I., which are approximately 5,000 miles apart. The Hawaiian station, formally opened on that day, is the most powerful in the world.

CENTENNIAL OF ADMISSION OF ILLINOIS.

The following resolution was adopted by the Illinois state senate Feb. 20 and concurred in by the house April 5, 1913:

"Whereas, Illinois was admitted to the union of states Dec. 3, 1818, the centennial anniversary thereof being rapidly approaching, and it being meet and fit that the state which has given of its sons so liberally to the progress of the nation and the world during the period of its statehood should fittingly observe its hundredth anniversary by a celebration which shall do honor to itself and to the nation;

"Resolved, by the senate, the house of representatives concurring, That a commission, consisting of five members of the senate and five members of the house of representatives of the forty-eighth general assembly, shall be appointed to have charge of the preliminary arrangements of such celebration to be held in Springfield, the state capital, on such centennial date, and to determine, as may be, the character and necessities of such celebration, and to report the result of its findings to the forty-ninth general assembly; such joint commission to hold its meetings in the city of Springfield at such time or times as may be necessary to successfully inaugurate such movement."

Subsequently by another joint resolution E. J. James, E. B. Greene and J. W. Garner of the University of Illinois and Mrs. Jessie Palmer Weber and Dr. Otto L. Schmidt of the Illinois Historical society were appointed as additional members of the committee. The sum of \$10,000 was appropriated to defray the expenses of the commission.

At a meeting held in Springfield July 22 Senator Campbell S. Hearn was elected chairman and Mrs. Jessie Palmer Weber secretary. The following proposals were adopted:

1. Promotion of local celebrations throughout the state.
 2. Holding of a state celebration at the capital, consisting of an exposition and a pageant illustrative of the social, economic and educational development of the state.
 3. Preparation of a series of publications putting into permanent form the record of the state's progress in all lines of development.
 4. Erection of a permanent memorial building for the use of the historical and educational departments of the state, where shall be preserved the historical relics of the state; containing a memorial hall where shall be placed statues of Illinois' illustrious men.
 5. Erecting and unveiling of bronze statues of Lincoln and Douglas on the capitol grounds as provided for in bills enacted at the session of the legislature in 1913.
- A comprehensive and elaborate plan was presented to the state commission by President Edmund J. James of the University of Illinois. His suggestion, similar to that of the commission's, was to have chief celebrations in Springfield, at the University of Illinois, which completes its fiftieth year of organization in 1918, and in Chicago. Lesser celebrations are suggested for the county seats.

The centennial commission:
President—Dr. Otto L. Schmidt, Chicago.
Secretary—Mrs. Jessie Palmer Weber, Springfield.
Dr. Edward Bowe, Jacksonville; Rev. Royal W. Ennis, Hillsboro; Prof. Everts B. Greene, Urbana; Judge Thomas F. Scully, Chicago; Rev. Frederick Siedenbach, Chicago; Dr. Harry Pratt Judson, Chicago; A. J. Poorman, Fairfield; William Butterworth, Moline; John W. Bunn, Springfield; William Nelson Pelouze, Chicago; Frederick H. Smith, Peoria; Leon A. Colp, Marion, and George Passfeld, Springfield.
Director of Celebration—H. S. Magill, Jr.

COMMEMORATIVE HISTORY OF ILLINOIS.

By an amendment (approved June 25, 1917) to the law creating the centennial commission that body is authorized to compile and publish a commemorative history of the state of Illinois. After the first edition of the his-

tory has been published and distributed as provided by an act entitled "An act making an appropriation for the Illinois centennial commission," approved Jan. 21, 1918, it shall be lawful for the commission to provide for the publication of a special edition of the history, and in so doing the commission may use or loan such plates, type, cuts, illustrations, printed and printing material, editorial and historical data it may now or hereafter own, purchase or which it may now or hereafter have in its possession or control, and the commission may for the purpose of dissemination and general distribution of the commemorative history among the citizens of the United States authorize a reputable publisher or publishers of its election to publish and distribute such special edition: Provided, however, that the commission shall incur no indebtedness on the part of the state of Illinois.

CENTENNIAL MEMORIAL BUILDING.

The state legislature passed an act, approved June 25, 1917, providing that a centennial memorial building shall be erected in the city of Springfield on the grounds south of the capitol building, purchased by the centennial building commission and to cost when completed approximately \$850,000. The building shall be planned to provide for a memorial hall, a Lincoln memorial room, state library, state historical library, state museum, a repository for state archives, department of public instruction and such other departments as may be determined by those having the work in charge. The centennial memorial building, when completed, shall be in the custody of the secretary of state.

ILLINOIS CENTENNIAL FLAG.

The Illinois legislature passed an act, approved June 25, 1917, authorizing the state centennial commission to use a state banner or flag commemorating the centennial anniversary of the admission of the state of Illinois into the federal union. The banner or pennant shall consist of three horizontal stripes in proper proportion as to length and width, the upper and the lower stripes being white in color and the middle stripe national blue in color, the stripes being of such dimensions that they will appear of equal width. At the staff end of the flag or emblem there shall be ten stars blue in color in the upper white stripe, and ten stars blue in color in the lower white stripe, each group of the ten stars being arranged in four rows as follows: Four blue stars in the first row near the staff end of the flag or emblem, three blue stars in the second row, two blue stars in the third row, and one blue star in the fourth or last row, in such a manner that four of the blue stars in each white stripe shall face the staff end and four of the blue stars shall also face the middle or blue stripe. In the center blue stripe, near the staff end of the blue stripe, and in a proper relative position between the two star fields on the two white stripes, there shall be one single white star of a larger size than the stars on the white stripes representing Illinois, the twenty-first state admitted to the union.

ILLINOIS AS SEEN IN 1818.

Following are brief extracts from a letter written by Gershom Flagg to his brother, Artemas Flagg. It is dated at Edwardsville, Madison county, Illinois territory, Sept. 12, 1818:

"We have all kinds of soil from middling poor to the very best. It produces corn and wheat better than any other country I have ever seen. It also produces hemp, flax, melons, sweet potatoes, turnips and all kinds of vegetables except Irish potatoes as good as any other country.

"The bottom prairies are covered with weed of different kinds and grass about eight feet high. The high prairies are also thickly covered with grass but finer and not so tall. The prairies are continually covered (in the summer season) with wild flowers of all colors which give them a very handsome appearance.

"The situation of this territory is good for trade, having the advantage of water carriage on all sides, the Mississippi on the west, the Ohio and the Wabash on the southeast and the Kaskaskia and Illinois in the interior of the territory. The Illinois, which is about 400 miles in length, heads near Lake Michigan. A branch of the Illinois heads within four miles of the Chicago, a short river which empties into Lake Michigan. In freshets boats pass this portage, the waters being connected. They are made shallow for the purpose. I think there will be a canal to connect the waters of the Illinois and the Chicago at no distant period. This done we have a water communication from almost any part of the territory to the states of Indiana, Ohio and Pennsylvania; also with New York by way of Lake Erie and easy communication with the ocean by New Orleans.

"We have a great plenty of deer, turkeys, wolves, opossums, prairie hens, eagles, turkey buzzards, swans, geese, ducks, brant, sandhill cranes and many other small animals and birds.

"There is more money here in this territory, I suppose, than in any other place in the world. I have heard hunters say that they have found eight or ten swarms a day on the St. Gama (Sangamon) and Illinois rivers where there are no settlements. (Truly this must be a land of milk and honey.) * * * The stock of this country consists principally of horses, horned cattle and hogs. Sheep will do very well if they can

be kept from the wolves, but this cannot well be done in the newly settled parts, as the wolves are so very numerous. * * *

"The people of this territory are from all parts of the United States and do the least work I believe of any people in the world. Their principal business is hunting deer, horses, hogs and cattle and raising corn. They have no pasture but turn everything out to run at large and when they want to use a horse or oxen they will have to travel half a dozen miles to find them through grass and weeds higher than a man can reach when on horseback and the grass and vines are so rough that nothing but their leather hunting shirts and trousers will stand any chance at all. * * *

"The price of corn last harvest was 3¼ cents, in the spring 50 cents and in summer 75 cents. Potatoes are from 50 to 100 cents a bushel; oats, 50 cents; wheat, \$1; beef from \$3.50 to \$5 per hundred; pork from \$4 to \$7 a hundred. Dry goods are getting very cheap. The country is full of them. We have more merchants than anything else. Boots and shoes sell the highest here of any place I have ever been in. Salt is \$3 a bushel; butter from 12½ to 50 cents a pound. Cheese generally brings 25 cents and very little is to be had at that price, for there is none made except by eastern people. The price of improved farms here is from \$5 to \$12 an acre."

LEGISLATIVE ADVISORY COMMITTEE.

A prominent part in the official celebration of the centennial in 1918 will be taken by the legislative centennial advisory committee, appointed by the 50th general assembly to co-operate with the centennial commission and assist in the centennial celebration. The committee was created in response to a request made by Gov. Lowden in a special message addressed to the general assembly on June 16.

In this message the governor said:

"Gentlemen of the 50th General Assembly: Next year Illinois will celebrate the centennial anniversary of its entrance into the union. The hundred years of our statehood history will be commemorated then. These hundred years are big with achievement. Our population in 1818 was 40,000 of scattered pioneers. Now it is more than 6,000,000. The fifth largest city in the world lies within our borders. Our resources have increased with our population. Many of Illinois' sons have written their names large in the history of the world. Illinois played a conspicuous, if not a decisive, part in the war for the union. The history of that war could not be written with Illinois left out.

"We are now engaged in another great war, in which the liberties of all mankind are challenged. We could be recent to our past of we did not at this time recall to ourselves the achievements of a hundred years of free institutions in Illinois.

"Your honorable body has made fitting provisions for this celebration, which should be marked with simplicity and solemnity, but with great patriotic earnestness. The commission having this work in charge is proceeding ably to this end. They desire that your honorable body appoint a committee to unite with the executive and judicial departments of the state in extending invitations to the president of the United States, the governors of the different states, and to other distinguished guests, and to advise with the commission upon matters pertaining to the celebration.

"I, therefore, recommend the appointment of such a joint committee. Respectfully submitted,
 "FRANK O. LOWDEN, Governor."

The legislative advisory committee is composed of the following members:

From the house—Speaker David E. Shanahan; Thomas A. Boyer, 4458 Emerald avenue, Chicago; Frederic R. DeYoung, 50 155th street, Harvey; Ernest J. Odum, Benton; Randolph Boyd, Galva; Frederick A. Brewer, Tampico; Carl Mueller, 2142 Lincoln Park West, Chicago; Jacob Frisch, Springfield; John B. Burns, 622 Blue Island ave-

nue, Chicago; Thomas N. Gorman, Peoria; John Kassarman, Newton.

From the senate—Lieut.-Gov. John G. Oglesby; John Dailey, Peoria; Frederick B. Roos, Forest Park; Edward C. Curtis, Grant Park; Adam C. Cliffe, Sycamore; Richard J. Barr, Joliet; Willett H. Cornwell, 3825 Alta Vista terrace, Chicago; Simon E. Lantz, Congerville; Morton D. Hull, 4855 Woodlawn avenue, Chicago; Al. F. Gorman, 5436 Morgan street, Chicago; Edward J. Hughes, 260 North California avenue, Chicago.

The committee will join with the governor and other state officers and the justices of the Supreme court in issuing formal invitations to the governors of other states and foreign ministers and other dignitaries to attend the ceremonial to be held at the state capital on Oct. 6, 1918, the 100th anniversary of the inauguration of the first governor of Illinois. They also will be consulted and advised with by the centennial commission in the carrying out of the plans of the centennial.

PLANS FOR CELEBRATION.

From an address delivered at Quincy, Ill., Sept. 19, 1917, before the Illinois State Founders' association by Hugh S. Magill, Jr., director of the Illinois centennial celebration.

"The plans of the centennial commission include a state-wide celebration and a celebration at the state capital. As a feature of the state-wide celebration the commission is having prepared and will publish a centennial memorial history of Illinois in six volumes. This work is being prepared and edited by a staff of expert historians under the direction of the publication committee of the centennial commission, with the co-operation of the state historical library and the University of Illinois. The first volume, 'Illinois in 1818,' has already been published, and the other five volumes will follow within the next few months. The state will own the copyright on these volumes and also the plates, and it is planned that a large edition shall be published and sold at a nominal cost. The commission has felt from the beginning that there was no more suitable way of celebrating Illinois' 100th anniversary than the publication and general distribution of an authoritative history of the state, telling its wonderful story of development and progress. * * *

'Early in 1918, perhaps on Lincoln's birthday, there will be unveiled on the capitol grounds at Springfield a statue of Abraham Lincoln, designed by Andrew O'Connor. This statue will cost, completed, over \$50,000, and represents Lincoln as he was known in Springfield before his home city and state gave him to the nation and to the world. All the arrangements for the erection of this statue have been made under the directions of the state art commission. The artists who have seen the model pronounce it equal, if not superior, to any statue of Lincoln that has ever been made. It is highly appropriate that the greatest statue of our greatest American should be erected in his home city, hallowed by his memory, and where he lies buried. The statue of Stephen A. Douglas, by Gilbert P. Bismold, likewise prepared under the auspices of the state art commission, will be erected and unveiled early next spring—very likely on Douglas' birthday, the 23d of April. Provision has also been made for the erection of a centennial memorial building, the corner stone of which will be laid next year. This building will be a permanent memorial, which shall through years to come emphasize the fact that Illinois did not forget to commemorate her centennial anniversary.

'The centennial celebration at the state capital will include a great historic pageant, giving the story of Illinois from the days of the Indians down to the present time. It is planned that this pageant shall be written and produced by the very best artists and shall be in keeping with the historic importance of our state. The state fair will be broadened in its scope to include a centennial exposition, exhibiting the material progress of our state through the years. A great ceremonial program will be held at the state capital, probably on the centennial anniversary of the inauguration of the first governor. The governor and other state officers, the justices of the Supreme court, the lieutenant-governor and speaker of the house of representatives and a special committee from both houses of the legislature will join the centennial commission in extending to the president of the United States and to the governors of the states an invitation to come to Illinois and join in a great ceremonial program. This particular event should be of great historic importance, as it marks the beginning of the second century of our state government."

DISTRIBUTION OF TAXES.

The state taxing commission, consisting of the governor, state treasurer and state auditor, met in Springfield Dec. 5, 1917, and fixed the state taxing rate at 90 cents on the \$100 valuation. The distribution of the state moneys' was fixed

as follows: General revenue, 68.75 cents; schools, 15.75 cents; University of Illinois, 10 cents and waterways $\frac{1}{2}$ cent. The advance in the tax rate from 80 to 90 cents was made necessary by the extraordinary war expenses.

METROPOLITAN DISTRICT MANUFACTURES.

The Chicago metropolitan district embraces 409,087 acres, of which 120,210 acres represent the area of Chicago, and 288,877 acres the outside territory. The estimated population of Chicago in 1914 was 2,397,600, and that of the outside territory 308,824, the total for the district being 2,706,424. The district comprises, in addition to the city of Chicago, the townships of Berwyn, Bloom, Calumet, Cicero, Evanston, Leyden, Lyons, Maine, New Trier, Niles, Norwood Park, Oak Park, Proviso, Ridgeville, Riverside, Stickney, Thornton and Worth, all in Cook county, Illinois, and Calumet and North townships in Lake county, Indiana. Within these townships, or co-extensive with them, there are seven incorporated places of 10,000 or more inhabitants.

In 1914 the metropolitan district had 10,945 manufacturing establishments, which gave employment to 444,876 persons during the year and paid out \$353,484,061 in salaries and wages. Of

the persons employed 362,355 were wage earners. These establishments manufactured products to the value of \$1,734,736,737, to produce which

GARNISHMENT LAW OF ILLINOIS.

Section 14 of the act of 1872 as amended in 1897 and 1901 declares: "The wages for services of a wage earner who is the head of a family and residing with the same, to the amount of fifteen (\$15) dollars per week, shall be exempt from garnishment. All above the sum of fifteen (\$15)

dollars per week shall be liable to garnishment."

Employers are obliged to pay wages amounting to \$15 or less, notwithstanding the service of a writ of garnishment, providing the person to whom wages are due makes affidavit that he is the head of a family and is living with the same.

RATES OF FARE FOR TAXICABS.

Fixed by Chicago city ordinances. Sight-seeing cars and autobuses having a capacity of eight persons or more not included.

I. RATES BY DISTANCE.

- For first half-mile (or fraction thereof) for one person.....40 cents
 For each succeeding quarter-mile (or fraction thereof).....10 cents
 For each additional person for the whole journey.....15 cents
 For each four minutes of waiting (or fraction thereof).....10 cents

Waiting time shall include (a) the time during which the taxicab is not in motion, beginning ten minutes after call time at the place to which it has been called; (b) the time consumed by unavoidable delay at street crossings or bridges, and (c) the time consumed while standing at the direction of the passenger.

No charge shall be made (a) for time lost for inefficiency of the taxicab or its operator, or (b) for time consumed by the premature arrival in response to a call.

II. HOUR RATES.

For trip of two miles or more.

Car seating two persons, \$2.50; minimum charge for trip, \$1.

Seating three to five persons, \$3.50; minimum charge for trip, \$1.50.

Seating more than five persons, \$4.50; minimum charge for trip, \$2.

Where the trip is for two miles or more and the passenger at the time of hiring any such vehicle expressly elects, as such passenger may do, to pay therefor by the hour, the operator in charge of such vehicle shall supply the passenger with a card upon which shall appear the name of the owner, the name and license number of the operator and the exact time of the hiring, and the charge for such service, in the absence of such express agreement, shall not exceed the rates prescribed above as the "hour rate."

The rate of fare to be asked or demanded for such vehicles shall be determined in accordance with the time in which the vehicle is in use by the passenger or passengers engaging the same.

In determining the seating capacity of any such vehicle neither the operator's seat nor any portion thereof shall be computed, but the said capacity shall be determined by the number of persons which can be accommodated in the interior or tonneau of such vehicles.

No charge shall be made for the time consumed in responding to a call or in returning to the place from which such vehicle is called.

Baggage—Every passenger upon any public automobile, autocar or other similar vehicle shall be allowed to have conveyed with him upon such vehicle, without extra charge therefor, his ordinary light traveling baggage in an amount not to exceed fifty pounds. A fee of 20 cents may be charged for conveying a trunk.

Lost Baggage—Whenever any package, article of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, the operator of such vehicle shall, upon discovery of such package, baggage or goods, forthwith deliver the same to the vehicle bureau, department of police, in the city hall.

CAB AND CARRIAGE FARES.

ONE-HORSE VEHICLES.

1. For one or two passengers, not exceeding one mile.....\$0.50
 2. For each additional passenger, 25 cents for the first mile or part thereof only..... .25
 2. For one or more passengers for the second

mile and subsequent miles or part thereof, 25 cents for all for each such mile or part thereof.....\$0.25

4. For children between 5 and 14 years of age, when accompanied by an adult, not more than half of the above rates shall be charged for like distances. For children under 5 years of age, when accompanied by an adult, no charge shall be made.

5. For the use of any vehicle mentioned in this section conveying one or more passengers, when hired by the hour with the privilege of going from place to place and stopping as often as may be required, as follows:

For the first hour..... 1.00

For each additional hour or part thereof at the rate of \$1 an hour.

6. In the case of any vehicle described in this section being engaged by the hour and discharged at a distance from the place where it was engaged the driver shall have the right to charge for the time necessary to return to such place.

TWO-HORSE VEHICLES.

1. For one or two passengers not exceeding one mile.....\$1.00

2. For each additional passenger, 50 cents each for the first mile or part thereof only. .50

3. For one or more passengers for the second mile and subsequent miles or part thereof, 50 cents for all for each mile or part thereof..... .50

4. For children between 5 and 14 years of age, when accompanied by an adult, not more than half of the above rates shall be charged for like distances. For children under 5 years of age, when accompanied by an adult, no charge shall be made.

5. For the use of any vehicle mentioned in this section conveying one or more passengers, when hired by the hour with the privilege of going from place to place and stopping as often as may be required, as follows:

For the first hour..... 2.00

For each additional hour or part thereof, at the rate of \$1.50 an hour.

6. In the case of any vehicle described in this section being engaged by the hour and discharged at a distance from the place where it was engaged, the driver shall have the right to charge for the time necessary to return to such place.

Hiring by the Hour—Must be so specified at the time of hiring. In all cases where the hiring of any vehicle licensed under the provisions of this article is not at the time of such hiring specified by the person hiring same to be by the hour, it shall be deemed to be by the mile, and for any detention exceeding a total period of fifteen minutes during the whole period of such hiring, when so working by the mile, the driver may demand pay for such period of detention at the rate of \$1.50 per hour in addition to the rate per mile.

Baggage—Every passenger upon any vehicle licensed under the provisions of this article shall be allowed to have conveyed with him upon such vehicle without charge therefor his ordinary light traveling baggage in an amount not to exceed in weight seventy-five pounds.

Lost Baggage—Whenever any package, article of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, the driver of such vehicle shall upon the discovery of such package, baggage or goods forthwith deliver the same to the board of inspectors of passenger vehicles.

GOVERNMENT OF ILLINOIS.

Legislative power is vested in a general assembly, consisting of a senate and house of representatives, both elected by the people. The state is divided into fifty-one senatorial districts, each of which elects a senator and three representatives. The general assembly makes laws and appropriates money for the government of the state and in general stands in the same relation to the state as congress does to all the states as a whole. The powers and duties of the chief executive officers are as follows:

Governor—The governor is vested with the chief executive power of the state. He is the commander in chief of the military and naval forces and may call out the militia to maintain the peace. He is required to inform the general assembly, by message, of the condition of affairs of the state and to recommend needed legislation. He may, by proclamation, call a special session of the assembly or adjourn it in case of disagreement between the two houses. He has the power to appoint certain officers and during a recess of the senate may fill vacancies or remove certain officers and may call special elections to fill vacancies in certain offices. He may make requisitions upon the governors of other states for the return of fugitives from justice or offer rewards for the arrest of offenders against the laws of the state. He exercises a general supervision over the penitentiaries and may grant reprieves, commutations and pardons and may restore the rights of citizenship to ex-convicts. He may approve acts of the legislature and exercise the veto power.

Lieutenant-Governor—This officer is ex officio president of the senate and has the power to cast the deciding vote in case of a tie. In case of the death, conviction on impeachment, failure to qualify, resignation, absence from the state or other disability on the part of the governor, the lieutenant-governor succeeds to the office to the close of the term.

Secretary of State—The secretary of state is charged with the safekeeping of the original laws and resolutions of the general assembly; with all books, bills and documents deposited with him by either house, and with all bonds, records and papers filed in his office. He keeps a record of the official acts of the governor; furnishes certified copies of the same to the assembly on request and certified copies of any of the records of his office on the payment of the statutory fees. He countersigns and affixes the seal of the state to all proclamations and

commissions issued by the governor; issues licenses for incorporations and certificates of organization to cities and villages and incorporated towns. He has charge of most of the buildings and grounds belonging to the state in Springfield, furnishes supplies for the general assembly and supervises the printing and distribution of all the public documents of the state. He calls the house of representatives to order at the beginning of each general assembly and presides over the same until the election of a speaker. He is the keeper of the great seal of the state and is the custodian and sealer of weights and measures.

Auditor—The auditor is required to keep all the accounts of the state; to audit the accounts of all officers or other persons authorized to receive moneys from the state treasury; to personally sign all warrants drawn on the treasury; to institute suits wherein the state is a plaintiff, and to make a biennial report of the business of his office to the governor. With the governor and treasurer he determines the state tax rate. He exercises a general supervision over state banks, building, loan and homestead associations.

State Treasurer—The state treasurer is custodian of the revenues and public moneys of the state. He must make monthly settlements with the auditor and a biennial report to the governor.

Superintendent of Public Instruction—The superintendent exercises a general supervision over all the public schools of the state. He is the general and legal adviser of the county superintendents and must report biennially to the governor the general condition of all the schools of the state, the amount raised by taxation for school purposes and the manner of its expenditure and the general condition of all the school funds. He may grant state certificates to teachers or cause them to be withheld and must visit charitable institutions which are educational in character.

Attorney-General—It is the duty of the attorney-general to represent the state in the Supreme court in all cases in which the state is interested; to act as counsel for all state officials; to be the legal adviser of the governor and other state officers in matters relating to their official duties, and, on request, to furnish them, as well as either branch of the general assembly, with written opinions upon constitutional or legal questions.

CHICAGO BUREAU OF PUBLIC EFFICIENCY.

Organized in 1910.

Trustees—Julius Rosenwald, chairman; Alfred L. Baker, treasurer; Onward Bates, George G. Tunell, Walter L. Fisher, A. B. Pond, Victor Elting, Frank I. Moulton.
Director—Harris S. Keeler.
Headquarters—City Club building, 315 Plymouth court.

The purposes of the organization are:

- (1) To scrutinize the systems of accounting in the eight local governments of Chicago.
- (2) To examine the methods of purchasing materials and supplies and letting and executing construction contracts in these bodies.
- (3) To examine the pay rolls of these local governing bodies with a view of determining the efficiency of such expenditures.
- (4) To make constructive suggestions for improvements in the directions indicated under 1, 2 and 3, and to co-operate with public officials in the installation of these improved methods.
- (5) To furnish the public with exact information regarding public revenues and expenditures and thereby promote efficiency and economy in the public service.

CHICAGO STREET GRADES.

The grade of the streets in the central portion of Chicago has been raised three times. In 1855 it was raised from 2½ to 3 feet above the then existing surface, and it was again raised by about the same amount in 1857 and 1872, making the present level fourteen feet above "city datum," which is the low-water mark of the lake in 1847.

MEETINGS OF COUNCIL.

Regular meetings of the council are held every Monday at 2 p. m., except when otherwise ordered at a regular meeting.
Duties—In a general way the duties of the board of aldermen are to enact ordinances for the government of the city, levy and collect taxes, make appropriations, regulate licenses, etc. The matters coming under the jurisdiction of the council are indicated by the names of the committees given above.

CITY CLERK'S OFFICE.

City hall, first floor, south end.
City Clerk—James T. Igoe, D.
Chief Clerk to City Clerk—Edward J. Padden.
Duties—The city clerk keeps the corporate seal of the city and all city council documents. He attends the meetings of the council and keeps the journal of its proceedings. All city licenses are issued through his office. He is secretary of the board of trustees of the firemen's pension fund. The city clerk also issues hunters' licenses.

CITY TREASURER'S OFFICE.

City hall, second floor.

Hours—9 a. m. to 5 p. m.: open to public,
10 a. m. to 3 p. m.

City Treasurer—Clayton F. Smith, D.

Assistant—Joseph Rushkewicz.

Chief Clerk—Albert J. Keefe.

Chief Cashier—J. C. Smith.

Duties—The city treasurer is an elective, charter officer of the city of Chicago; he is also school treasurer of the city of Chicago; treasurer of the firemen's pension fund, public school teachers' pension and retirement fund, public school employees' pension fund, public library employees' pension fund, municipal pension fund of Chicago, and house of correction employees' pension fund. The treasurer receives all moneys belonging to the corporation, deposits the funds in bank, keeps separate accounts of each fund or appropriation. He is the custodian of the taxes, license fees and all other moneys and securities belonging to the various funds of which he is the treasurer. All disbursements of funds are made by the treasurer on warrants signed by officials who are designated by statute.

The legislature, by statutory enactments, requires the city treasurer to render reports at stated periods showing the condition of the treasury of the city and the balance of money in the treasury, and to make such additional reports as the city council from time to time shall require. For this reason and for the further purpose of supervising and limiting expenditures to the amounts appropriated by the city council for each object and purpose, the treasurer is by statute required to keep the accounts of all funds or appropriations and of the debts and credits pertaining thereto. The city's books and accounts must be kept open by the treasurer for inspection by the committee on finance and all members of the city council whenever information concerning the city's financial affairs is required.

As school treasurer he is required by the state school law to keep books and accounts concerning the financial affairs of the board of education, including a record of the revenues collected from taxation or received from the state common school fund, etc., and to make reports at stated periods concerning the state of the school treasury and the balance of money in that treasury at the time such reports are made. His books and accounts concerning school matters must be kept open for inspection by the members of the board of education whenever information concerning the financial affairs of the board of education is required. His bond, at the present time, is fixed at \$2,000,000.

CHICAGO INTERURBAN TROLLEY LINES.

Following are the principal electric interurban lines with terminals in or near Chicago, with the names of the principal points reached by them:

Chicago & Milwaukee—Terminal in Evanston; makes connection with Northwestern elevated and surface lines to Chicago; runs north to Waukegan, Kenosha, Racine and Milwaukee; branch from Lake Bluff to Libertyville and Rockfeller.
Electric lines run from Milwaukee to Burlington, to East Troy, to Waukesha, Pewaukee, Oconomowoc and Watertown and to Sheboygan and Elkhart lake.

Chicago & Joliet—Terminal at 48th street and Archer avenue; runs southwest to Lockport and Joliet; connects at Joliet with lines for Aurora, Chicago Heights, Morris, Seneca, Ottawa, Starved Rock, Urica, LaSalle, Peru, Spring Valley, Bureau and Princeton. From Ottawa a line runs to Streator.

Aurora, Elgin & Chicago—Terminal at 256 5th avenue; runs in a westerly direction to Wheaton,

where one branch runs northwest to Elgin and one southwest to Aurora; at Eola Junction on the latter branch a line runs to Batavia. Aurora and Elgin are connected by a line which runs as far south as Yorkville and as far north as Carpenterville. At Elgin connection is made with a line running to Belvidere and Rockford and from the latter place a line runs west to Freeport and another north to Beloit and Janesville. At Aurora a line runs northwest to DeKalb. The Aurora, Elgin & Chicago road is operated on the third rail system.

Chicago & Southern Traction—Terminal at 79th and Halsted streets; runs in a southeasterly direction to Chicago Heights and Kankakee.

Chicago, Lake Shore & South Bend—Terminal at Pullman; runs in an easterly direction to Michigan City and South Bend; connects at South Bend with interurban lines reaching various points in Michigan and Indiana.

GREAT MEDICAL SCHOOL FOR CHICAGO.

It was announced Nov. 10, 1916, that the General Education board and the Rockefeller Foundation had each appropriated \$1,000,000 for the establishment, in connection with the University of Chicago, of schools of medicine and research laboratories. The gifts were conditional on the raising of \$3,300,000 additional. Of this amount it was announced that \$700,000 had already been

pledged. Rush Medical college and the Presbyterian hospital are to be a part of the new medical center. The plans call for the best teaching forces and equipment obtainable.

It was announced Nov. 13, 1916, that Mr. and Mrs. Julius Rosenwald of Chicago had subscribed \$500,000 for the new medical institution. Later Mr. and Mrs. F. H. Rawson added \$300,000 to the fund.

LOCAL GOVERNMENTS WITHIN CHICAGO.

[From report of Chicago Bureau of Public Efficiency.]

There are twenty-two distinct governing agencies in the territory that Chicago comprises, most of them absolutely independent of one another. They are:

City of Chicago.
 Board of education.
 Library board.
 Municipal tuberculosis sanitarium.
 Cook county.
 Sanitary district of Chicago.
 South park commissioners.
 West Chicago park commissioners.
 Lincoln park commissioners.
 Ridge avenue park commissioners.
 North shore park commissioners.
 Calumet park commissioners.
 Fernwood park commissioners.
 Ridge park commissioners.
 Irving park commissioners.
 Northwest park commissioners.
 Old Portage park commissioners.

Edison park commissioners.
 West Pullman park commissioners.
 Ravenswood Manor-Gardens park commissioners.
 River park commissioners.
 Commissioners of the first park district of the city of Evanston.

The board of education, the library board and the tuberculosis sanitarium, while having their separate tax levies, are subject to a degree to control by the mayor and city council. The other bodies named are independent of one another. The state public utilities commission, though not a taxing body, is, in a sense, another governmental agency in the city.

If account were taken of the eight towns lying wholly within the city of Chicago (Lake View, North Chicago, Jefferson, West Chicago, South Chicago, Hyde Park, Lake and Evanston), which still have legal existence, the number of governing bodies comprised in the city would be thirty, instead of twenty-two.

SOUTH WATER STREET PLAN.

SKETCH OF PROPOSED SOUTH WATER STREET DOUBLE DECK IMPROVEMENT.

View looking southeast across the river from Kinzie street, with the Franklin-Orleans street bridge and the double deck arrangement sketched. The buildings shown are in the central district of the city. From sketch by E. H. Bennett, consultant on city plan.

In November, 1917, Charles H. Wacker, chairman of the Chicago plan commission, submitted an elaborate report on a plan for making South Water street the second finest thoroughfare in Chicago. The main features of the plan follow: Here is the way to change South Water street into a fine highway of tremendous economic value to Chicago, and profit to the city treasury plus a tremendous saving to the consumer:

First. Take for public use all the property between the river bank and South Water street from State street to Market street, excepting the big building of Hibbard, Spencer, Bartlett & Co. Tear down all the buildings and convert their sites into street space.

Second. Double deck South Water and River streets from Michigan avenue to Market Street, having the upper level conform to the present elevation of the decks of the bridges. Keep the upper level of the new street for light traffic, excavate and construct a heavy traffic way on the lower level to connect the lake front warehouse, railway and manufacturing district with the west side railway and industrial zone.

Third. Create on the surplus area of the lower level a rail and water freight transfer and team track facility open to all roads for the downtown district, leasing platform and traffic rights to a terminal company; freight cars to be conveyed to and from the terminal by car floats and lighterage on the river. Subsurface area, if not used for freight station purposes and through traffic roadway, to be used as a public garage and parking space for automobiles. The subsurface space under the lower level will afford a storage space for the storage of 300 subway trailer cars, besides a double track for through service. These uses will produce public revenue sufficient to pay, in a few years, the entire cost of remodeling the street, so far as it would be borne by the city, and annually will save the citizens an amount nearly equal to the total cost.

The engineers, architects and technical staff of the Chicago Plan commission, aided by traffic, transportation and realty experts, have made a thorough study of the plan here outlined. It has been adjudged feasible, economical and in every way desirable.

South Water street is potentially one of Chicago's most valuable street assets. Nature has

made it the logical north boundary of the loop district, a little area comprising one-quarter of a square mile of high development in the heart of the world's fourth city. Consider how the improvement proposed will bring South Water street into its destiny, not as a fruit market, but as a modern, high class business thoroughfare.

On the upper level the new street will terminate upon the fine, broad plaza at the south end of the new Michigan avenue bridge. This light traffic driveway, skirting the river's edge for half a mile, will be mostly of a width of 110 feet. It will slope inappreciably to normal street level at Market and Lake streets. There can be broad sidewalks and such decorative treatment of the river embankment as is desirable. On the lower level, which will be 135 feet wide, will be provided a commodious and finely paved traffic road. This will connect at River street and Michigan avenue with the lower level of the double decked new Michigan avenue bascule bridge. South Water street, east of Wabash avenue, will go underneath Michigan avenue on the lower level and on into the freight yards. Its western exit will be into Market street, which is very wide, at the Lake street bridge. The lower level of this new trafficway will have no cross traffic. Team and trucks will have no delays, and so a tremendous volume of business can flow through it at huge saving in time and money to the industrial and commercial interests of Chicago. An important advantage of the lower level is that it will uninterruptedly connect the Illinois Central freight terminal area with the west side warehouse and terminal districts.

The lower level area, to be used for freight service and transfer, will be approximately one-third of the entire ground area. A roadway of eighty feet along the north or river line of the street will leave fifty-five feet for railway trackage and loading platforms.

The cost of remodeling South Water street and River street on this plan is estimated at \$5,282,680. Of this sum \$3,700,000 will be for lands and buildings (an average value of \$31.22 per square foot) and \$1,582,680 for double deck structure, dock walls, excavating, grading, approaches and realty damages. The land values given are the full, fair cash value as fixed by the board of review, and are accurate. The bulk of the South Water street

property to be taken is fifty-five feet deep, and the street is eighty feet wide.

Of the 6,070 automobiles daily crossing Rush street bridge, between 8 a. m. and 6 p. m., 4,500 are destined for the loop; the remainder, 1,570, is through traffic. Of the 4,500 automobiles entering the loop, 75 per cent are destined for the loop west of State street. A majority of these should turn westward at the Rush street bridge and go to their destination via South Water street. In this way 2,000 out of the 3,375 automobiles daily entering the loop via Rush street for points west of State street would be distributed from South Water street, instead of Michigan avenue.

A factor probably more important than the passenger automobile is that of the commercial vehicle, for upon the free, uninterrupted and economical facilities provided for teaming and trucking depends the commercial success of Chicago. With South Water street developed on the two-level plan, this heavy traffic can be facilitated and distributed as masterly as can the automobile traffic.

The removal of the South Water street market to some location outside the loop will reduce loop traffic 13,314 vehicle trips per day now required to serve the 6,133 retail grocers of the city. This is in addition to the 200 transfer and 1,700 freight team trips in the total of 15,714.

MUNICIPAL PIER AND OUTER HARBOR.

Four outer harbor sites along Chicago's lake front were established by the city council Nov. 20, 1911. The ordinances provided for the following districts:

No. 1—From the mouth of the Chicago river north to Chicago avenue and extending one mile into Lake Michigan.

No. 2—From the mouth of the Chicago river south to Randolph street and extending one mile into the lake.

No. 3—From the south end of Grant park south to 31st street and extending one mile into the lake.

No. 4—All of the Calumet river within the city and all of Lake Calumet.

Feb. 7, 1912, the harbor and subway commission submitted to the council committee on harbors, wharves and bridges preliminary plans and drawings for the initial development of "outer harbor district No. 1." In this report the commission stated that it had proceeded on the theory that joint and parallel action by the federal government would be taken to protect the initial piers recommended by the construction of an adequate outer breakwater. The plan proposed by the commission provided for the construction of five piers extending eastward from the shore line between the mouth of the Chicago river and Chicago avenue, with a uniform length for four piers of 2,500 feet and one pier of 3,000 feet. At the election of April 3, 1912, a proposition to issue \$5,000,000 in bonds for harbor construction was approved by popular vote. It was found, however, that the O'Connor harbor act

contained a provision prohibiting the city from acquiring title to property along the lake shore line where it has been filled in or where the riparian rights were in dispute. The harbor law was re-enacted in amended form in June, 1913, by the legislature and in August of the same year, land along the lake shore between Illinois and Ohio streets was acquired for \$300,000, and arrangements for building the first pier were made at once. Contracts were let and work was actually begun March 16, 1914. The pier was practically completed near the close of 1915, and was used in 1916.

The pier extends 3,000 feet into the lake from the foot of Grand avenue. It rests on a foundation of concrete and piling, the superstructures being of brick and steel. The headhouse, as the building at the shore end of the pier is called, contains the administration offices and the entrances to the two freight and passenger buildings. Each of these is two stories in height, 2,340 feet long and 100 feet in width. The upper story is for passengers and the lower for freight. Between these buildings, which stand parallel to each other, is a roadway eighty feet in width. Between each building and the outer line of the dock is a six-foot dock. The total width of the pier is 292 feet. On the outer end is a recreation building, 665 feet long, containing a dance and concert hall, restaurant and other features of entertainment.

The total cost of the pier was approximately \$3,400,000, not including engineering and inspection. It is municipally owned and operated.

BOULEVARD CONNECTING LINK PROJECT.

Plans for properly connecting the south and north side boulevard systems of Chicago by means of widening Michigan avenue and a new bridge over the river began to be studied seriously in 1905 by committees of various public bodies, such as the city council, real estate boards, park boards and by architects and other private individuals. In 1906, 1907 and 1908 Daniel H. Burnham and Edward H. Bennett, architects, working under the direction of the Commercial club, prepared the famous "Plan of Chicago," of which one feature was the Michigan avenue improvement project. Nov. 1, 1909, the Chicago Plan commission, representing the official administration and the public generally, was created by the city council in response to an official request from Mayor Fred A. Busse, who appointed its members. It held its first meeting Nov. 4 in that year and elected Charles H. Wacker as president. The duty of the commission was to carry out as far as practicable from time to time the ideas formulated in the Commercial club, or as it is often called, the Burnham plan.

Study of the Michigan avenue project was begun at once by the commission and after a long series of meetings and conferences it adopted, July 10, 1911, a plan which was presented two days later to the board of local improvements for its consideration. June 2, 1913, that body submitted to the city council an ordinance for carrying the plan into effect and July 14 the ordinance was passed. Some of the property owners affected began proceedings attacking the validity of the ordinance and in December the state Supreme court made a ruling in which it declared that the ordinance was invalid because of faulty description of land involved in the project. A revised ordinance, correcting the errors pointed out by the court, was introduced in the council and finally passed by that body March 23, 1914, without opposition. At the election of Nov. 3, 1914, the people of Chicago approved a proposition to issue bonds in the sum of \$3,800,000 for paying that part

of the cost chargeable to the city for the boulevard link.

The ordinance as passed calls for the improvement of a thoroughfare extending from Randolph street northward along Michigan avenue, over the river, thence over private property and along Pine street and Lincoln parkway to Chicago avenue. Michigan avenue is to be widened to 127.5 feet and that part of the new thoroughfare north of the river is to be 341 feet wide. The improvement is to consist of a two-level roadway comprising an upper level extending the entire distance between Randolph street and Chicago avenue and supported between Lake street and Grand avenue upon an elevated steel and concrete structure, and a lower level extending from Lake street to Grand avenue. The bridge is to be double decked and of the bascule type, the upper level connecting the parts of the upper level of the thoroughfare and the lower level connecting the portions of the lower level of the thoroughfare north and south of the river. The upper level of the bridge is to be ninety feet wide and the lower level sixty feet. The structure is to have a clear span between the abutments of 220 feet. The upper level is to be used by pleasure vehicles and the lower level is to carry heavy traffic.

The total cost of the entire improvement, including land to be taken, is estimated at about \$7,000,000. The cost of the bridge, elevated structure, walls and excavations, pavements, lighting and bridge machinery alone, without land damages, is estimated at \$2,298,247. The greater part of the cost will be met by assessments on the property benefited.

Appraisalment of the land and buildings to be taken in whole or in part for the improvement was completed in September, 1915, and it was announced that fifty-two holders of real estate would receive \$4,942,083 as awards from the city. When the awards have been confirmed by the County court the actual construction of the boulevard link will begin.

POSTAL SAVINGS BANK.

The postal savings bank was opened at the main postoffice, Chicago, Aug. 1, 1911. Any one 10 years old or over may open an account. No account may be opened for less than \$1, nor will fractions of a dollar be accepted for deposit. Depositors are now allowed to deposit a total of \$1,000, any part or all of which may be deposited in any month.

Deposits are evidenced by postal savings certificates issued in denominations of \$1, \$2, \$5, \$10, \$20, \$50 and \$100.

Depositors of the postal savings system by applying therefor thirty days in advance may exchange the whole or a part of their deposits on Jan. 1 or July 1 of each year for United States registered or coupon bonds in denominations of \$20, \$100 and \$500, bearing interest at the rate of 2½ per cent per annum, payable semiannually, and redeemable at the pleasure of the United States after one year from the date of issue, both principal and interest payable twenty years from that date in United States gold coin.

Postal savings banks have also been established at the following postal stations: Armour, Auburn Park, Austin, C. Canal, Chicago Avenue, Chicago Lawn, Cragin, D. Dauphin Park, Douglas Park, Eastside, Edgewater, Elsdon, Englewood, 51st Street, Garfield Park, Grand Crossing, Hawthorne, Hegewisch, Humboldt Park, Hyde Park, Irving Park, Jackson Park, Jefferson, Lake View, Lincoln Park, Logan Square, M. ILLINOIS WATERWAY

In a decision made public Feb. 21, 1917, the Illinois Supreme court upheld the constitutionality of the waterway act passed by the state legislature in 1915 providing for the construction of a channel eight feet deep between Lockport and Utica. In 1903 an amendment to the state constitution was adopted authorizing the legislature to exceed the bond issue limit in the construction of a deep waterway between the points named, connecting the Des Plaines and Illinois rivers, at a maximum cost of \$20,000,000. The original plans called for a channel fourteen feet deep. The so called Dunne bill,

ACT CONSTITUTIONAL.

passed by the legislature in 1915, called for an eight foot channel and authorized the issuance of \$5,000,000 of the \$20,000,000 bonds. Its constitutionality was attacked on the ground that eight feet did not constitute a "deep" waterway within the meaning of the constitutional amendment. This view was sustained by Judge Norman L. Jones of the Circuit court of Sangamon county, who granted an injunction against the issuance of the bonds. The opinion of the Supreme court reversed the decision of the lower court.

ILLINOIS PRIMARY ELECTIONS.

Under act of March 9, 1910, as amended by act of June 30, 1913.

DATES OF PRIMARIES.

A primary shall be held on the second Tuesday in April in every year in which a president of the United States is to be elected, for the purpose of electing delegates and alternate delegates to national nominating conventions and for the purpose of securing an expression of the sentiment and will of the party voters with respect to candidates for nomination for the office of president of the United States. A primary shall be held on the first Wednesday after the second Tuesday in September in every year in which officers are to be voted for on the first Tuesday after the first Monday in November of such year for the nomination of candidates for such offices as are to be voted for at such November election. Whenever the term "April primaries" is used it shall be construed as referring to both the foregoing primaries.

A primary shall be held on the last Tuesday in February in each year for the nomination of such officers as are to be voted for on the first Tuesday in April of such year.

A primary shall be held on the second Tuesday in March in each year for the nomination of such officers as are to be voted for on the third Tuesday in April of such year.

A primary shall be held on the first Wednesday after the second Tuesday in September, 1914, and every two years thereafter, for the nomination of candidates for senatorial offices and for the election of senatorial committeemen.

A primary for the nomination of all other officers, nominations for which are required to be made under the provisions of the act, shall be held three weeks preceding the date of the general election for such offices, respectively.

The polls shall be open from 6 o'clock a. m. to 5 o'clock p. m.

Any person entitled to vote at such primary shall be entitled to absent himself from his work for two hours between the opening and closing of the polls without incurring loss of wages or salary, providing application shall have been made on the preceding day. The employer may specify the hours.

PETITIONS.

Petitions for nomination shall be signed:

For a state office, by not less than 1,000 nor more than 2,000 primary electors of his party.

For state senator or assemblyman, by at least one-half of 1 per cent of the qualified primary electors of his district.

For a congressional office, by at least one-half of 1 per cent of the qualified primary electors of his party in his congressional district.

For a judicial office, by at least one-half of 1 per cent of the qualified electors in the district.

For a county office, by at least one-half of 1 per cent of the qualified primary electors of his party cast at the last preceding general election in his county; if for the nomination for county commissioner of Cook county, then by at least one-half of 1 per cent of the qualified primary electors of his party in his county in the division in which such person is a candidate for nomination.

For a city or village office, to be filled by the electors of the entire village, by at least one-half of 1 per cent of the qualified primary electors of his party in his city or village; if for alderman, by at least one-half of 1 per cent of the voters of his party in his ward.

For a senatorial committeeman, by at least ten of the primary electors of his party of the county where the senatorial district is coextensive with one county or is composed of more than one county; but in case the senatorial district is wholly within the territorial limits of one county, or partly within the territorial limits of one county and partly within the territorial limits of another county, then such petition shall be signed by at least ten of the primary electors of his party of his senatorial district.

For state central committeeman, by at least

100 of the primary electors of his party of his congressional district.

For a candidate for trustee of a sanitary district, by at least one-half of 1 per cent of the primary electors of his party from such sanitary district.

For a candidate for clerk of the Appellate court, by at least one-half of 1 per cent of the primary electors of his party of the district.

For any other office, by at least ten primary electors of his party of the district or division for which nomination is made.

CANDIDATE FOR PRESIDENT OR SENATOR.

Any candidate for president of the United States or for United States senator may have his name printed upon the primary ballot of his political party by filing in the office of the secretary of state not more than sixty days and not less than thirty days prior to the date of the April primary, in any year, a petition signed by not less than 1,000 nor more than 2,000 primary electors of the party of which he is a candidate. Provided, That the vote for president of the United States shall be for the sole purpose of securing an expression of the sentiment and will of the party voters with respect to candidates for nomination, and the vote of the state at large shall be taken and considered as advisory to the delegates and alternates at large to the national conventions of the respective political parties; and the vote of the respective congressional districts shall be taken and considered as advisory to the delegates and alternates of the congressional districts to the national conventions of the respective political parties.

DELEGATES TO NATIONAL CONVENTIONS.

Each person seeking to be elected as delegate or alternate delegate to the national nominating convention of his party shall file, along with his nominating petition, a statement in writing signed by him in which he shall state the name of the candidate of his choice for nomination for president of the United States, or, in lieu thereof, may file a statement to the effect that he has no preference. Any candidate for president for whom a preference is stated by any candidate for delegate or alternate delegate to a nominating convention may, at any time after the filing of a petition and before the name of such candidate is certified to the various county clerks for printing, file in the office of the secretary of state an instrument in writing disavowing the candidacy of the person who has so filed a nominating petition, and in case such candidate for president shall disavow the candidacy of the candidate for delegate or alternate delegate, the name of such candidate shall not be certified to the various county clerks for printing upon the official primary ballot.

CONVENTIONS.

On the first Monday after the April primary the county central committee of each political party shall meet at the county seat and organize such meeting to be called the county convention. The county convention of each political party shall choose delegates to the congressional and state conventions of its party. Only precinct committeemen residing within a congressional district shall take part in the selection of delegates to a congressional convention. Each delegate to the county convention shall have one vote and one additional vote for each fifty or major fraction thereof of his party as cast in his precinct at the last general election.

All congressional conventions shall be held on the first Wednesday after the first Monday next succeeding the April primary. The congressional convention of each political party shall have power to select delegates to national nominating convention and to recommend to the state convention of its party the nomination of a candidate or candidates from such congressional district for electors or electors of president and vice-president of the United States.

All state conventions shall be held on the first Friday after the first Monday next succeeding the April primary. The state convention of each political party shall have power to make nominations of candidates for the electors of

president and vice-president of the United States, and for trustees of the University of Illinois, to adopt any party platform and to select delegates and alternates to the national nominating conventions.

UNION STOCKYARDS, CHICAGO.

The Union stockyards of Chicago, occupying its present site since 1865, is the largest live stock market in the world. Its yard area of 500 acres contains approximately 13,000 pens, which have a daily capacity for 75,000 cattle, 150,000 sheep, 300,000 hogs and 6,000 horses.

Since the Union stockyards of Chicago were established there have been received and sold on this market a grand total of more than 550,000,000 animals for an aggregate sum of \$10,700,000,000, for every dollar's worth of which sales there was an actual delivery of the property.

For the past ten years an average yearly total of over 16,000,000 animals was sold for the stupendous annual average sum of over \$350,000,000. That means that a general average of considerably more than \$1,000,000 worth of living property was sold and delivered every business day during the last ten years on the Chicago live stock market. These figures do not embrace the enormous daily transactions of "Packing-town," which are second in magnitude only to those of the Union stockyards proper.

More than twenty-six states supply Chicago with live stock and during the past ten years there have been sold and shipped alive more than 40 per cent of the cattle, 22½ per cent of hogs and 26 per cent of sheep, showing the constant healthy competition in buying live stock at Chicago.

The Chicago live stock market supplies the world with meats. Nowhere is there such a demand for live animals. Packers buy thousands of carloads on other markets and ship them to Chicago for slaughter, and speculators buy and ship them to Chicago for sale.

The city of Chicago alone consumes more than 400,000,000 pounds of meats per year, equal to 800,000 head of cattle annually, and her packers send millions of tons of meat annually to the four corners of the earth.

Eastern buyers, exporters, independent local

slaughterers and country feeder buyers constantly compete with the larger packers for the daily offerings. The Union stockyards of Chicago receives the greatest number of animals and has the largest number of buyers to purchase and use them.

CHICAGO PARKS AND BOULEVARDS.

LINCOLN PARK SYSTEM.

Commissioners (appointed by governor with consent of senate)—Francis T. Simmons, John H. Hardin, Andrew Lanquist, Nelson N. Lampert, Bertram M. Winston, Samuel M. Felton, William Wrigley, Jr.

Officers—President, Francis T. Simmons; vice-president, John H. Hardin; auditor, Andrew Lanquist; secretary and superintendent, John C. Cannon; attorney, R. B. Baldwin; treasurer, Frederick H. Rawson.

Office—In Lincoln park near Clark and Center streets.

The Lincoln park district consists of the towns of North Chicago and Lake View, with Fullerton avenue as the dividing line, and is bounded on the north by Devon avenue, on the south by the Chicago river, and extends from Lake Michigan on the east to the north branch of the river and North Western avenue on the west.

The area of the Lincoln park district is 12.64 square miles. The total area of the parks and boulevards is 642.63 acres, with 11,755 miles of boulevards.

Lincoln Park—Lincoln park, previously known as Lake park, began its history under its present name by resolution passed by the common council of Chicago under date of June 5, 1865. The park proper is 317 acres in extent and extends from Diversey boulevard to Oak street along the lake front. To this 200.59 acres of land has been added by filling in Lake Michigan north of Diversey boulevard. This extension contains a 57 acre yacht harbor. The park contains a large floral department, also an extensive zoological garden containing about 1,800 animals. Boating and bathing facilities are furnished and the park lagoon—one mile in length—gives an admirable course for racing. The Academy of Sciences is located in the park at the foot of Center street. This building was erected in 1893 and contains about 250,000 specimens. It is noted for its collection of local natural history specimens and for its complete collection of mollusks. The park has provided facilities for outdoor games during both the winter and summer seasons.

Stanton Park—At Vedder, Vine and Rees streets; area 4.78 acres; equipped with fieldhouse and outdoor gym facilities.

Lake Shore Playground—Area 9.16 acres; is situated between Pearson street and Chicago avenue, extending from the Chicago avenue pumping works to the lake. This park is fitted up as a playground, containing a shelter house, and with outdoor and indoor gymnasium apparatus.

Seward Park—Contains 1.78 acres; is fitted with outdoor and indoor gymnasium and has a fieldhouse which contains reading rooms, assembly hall, clubrooms, a branch of the public library and facilities for gymnastic work and aquatic sports.

Hamlin Park—Wellington avenue and Robey street; area 8.64 acres; is fully equipped with fieldhouse and out-of-door gymnasium facilities.

Welles Park—Western avenue and Montrose boulevard; area 8.17 acres.

Union Square—Goethe street on the north and Astor street on the west; area .46 acre.

SMALL PARKS, PLAYGROUNDS AND BATHING BEACHES.

BUREAU OF PARKS, PUBLIC PLAYGROUNDS AND BATHING BEACHES.

Secretary—Walter Wright.

Superintendent of playgrounds—Theo. A. Gross.
Director in charge of beaches and pools—T. R. Daly.

Senior foreman of parks—F. R. Thomason.
Office of the bureau—1004 City hall.

The bureau of parks, public playgrounds and bathing beaches is a bureau of the department of public works. It maintains and has jurisdiction over seventy municipal playgrounds, four bathing beaches, four natatoriums, sixty-five small parks, city forestry or street trees, and Gage farm nursery.

The playgrounds are open all year around from 8 o'clock in the morning until 9 o'clock at night and each is in charge of a director and attendant, and during the spring, summer and fall a young woman assistant director or physical instructor.

A special tax of one-half mill was authorized in 1917 by the state legislature to provide funds for the maintenance of these playgrounds.

The bathing beaches under the jurisdiction of the bureau are the Clarendon beach, the largest municipal bathing beach in the world; the 61st street bathing beach, 76th street bathing beach and Rocky Ledge beach at the foot of 79th street.

The city has obtained the possession of the shore property extending from 75th street to 79th street, and it is intended to establish a large beach and park at this location.

Three of the four natatoriums are open the year around and no charge is made for their use. They are very popular in their respective neighborhoods, as is shown by the large attendance. Instruction is given in swimming during the winter months.

The small parks vary in size from a beauty spot of one-tenth of an acre to a forty acre park and are used to give every possible means of recreation to the people. Play apparatus, tennis courts, wading pools, etc., are established wherever possible.

City forestry is also under the jurisdiction of

the bureau of parks and the work of trimming trees goes on throughout the year. An emergency truck is used to remove the dead and dangerous trees in the parkways throughout the city so as to prevent accidents to pedestrians.

Following is a list of the small parks, playgrounds, bathing beaches and natatoriums under the jurisdiction of the bureau of parks, public playgrounds and bathing beaches, with the area of the parks in acres and size of the playgrounds.

NEW UNION RAILWAY STATION.

Ordinances for a new union passenger station and new freight terminals on the west side were passed by the city council March 23, 1914, after many months of investigation and consideration. Under the ordinances the union passenger station, to be occupied by the Pennsylvania, Burlington, Alton and St. Paul railroads, is to be located on the block bounded by Canal, Adams, Clinton and Jackson streets. Under Canal street there will be a subway connecting a large concourse on the east of that thoroughfare with the station. Sixteen passenger tracks will lead to the south and ten to the north. This part of the passenger terminal will reach practically from Carroll avenue on the north to 12th street on the south. The Pennsylvania freighthouses will be located immediately north of 12th street and extend to Taylor street, while the Burlington freighthouses will be between Harrison and Taylor streets and near Canal street. In exchange for rights in certain streets the railroads agreed to make improvements as follows:

Improvements.	Cost.
Viaduct, Monroe street.....	\$100,000
Viaduct, 12th street.....	270,000
Viaduct, Congress street.....	300,000
Viaducts, 14th and 16th streets.....	400,000
Viaducts, Taylor, Polk, Harrison, Van Buren, Jackson, Adams, Madison, Randolph and Lake streets.....	1,760,000
Elevated roadway, Canal and Kinzie streets.....	650,000

Revamping of Canal street, Washington to 12th street.....\$2,375,000

Total	5,855,000
To fit in with these improvements the city agreed to the following improvements at the costs estimated:	
Bridge, Monroe street.....	\$500,000
Double decked bridge, Kinzie street.....	600,000
Land to widen Canal street to 100 feet.....	760,763

Total

In addition, the roads agreed to pay \$1,511,000 in cash compensation.

The total cost to the railroads of the improvements under the terminal ordinances was estimated at \$65,000,000, exclusive of money previously paid for land.

Feb. 13, 1915, the city council passed an ordinance providing for the vacation of certain streets and alleys in connection with the Baltimore & Ohio freight terminal ordinance, making it possible for that road to vacate part of its old yards, which are needed for the new union terminal. The city, in payment for the streets and alleys surrendered to the railroad company, received \$111,304.77.

Work on the union terminal was begun Feb. 22, 1915. It consisted of preparing for the new freighthouses of the Pennsylvania company. Later, work was started on some of the street changes made necessary by the plans.

MUNICIPAL PENSION FUND OF CHICAGO.

The municipal pension fund was created by an act of the legislature in 1911 to benefit all civil service employees of the city of Chicago not contributing to any of the other pension funds, who have had at least twenty years' service and have reached the age of 55. The benefit is \$50 a month to the contributor as long as he or she lives.

There was a cumulative period of five years, which expired on June 30, 1916, after which all eligible employees might retire and collect the benefit.

MUSIC IN CHICAGO.

CHICAGO SYMPHONY ORCHESTRA.

Founded by Theodore Thomas.

The Theodore Thomas orchestra was organized in Chicago in 1890-1891 by a number of men interested in promoting the highest class of instrumental music. The orchestral association was incorporated Dec. 16, 1890, and Theodore Thomas, famous for many years as a conductor, was engaged to lead the new organization, which was then named the Chicago orchestra. The preparations were completed in 1891 and the first public rehearsal was given at the Auditorium Friday afternoon, Oct. 16, of that year. Financially the result of the first season was discouraging, the fifty or more gentlemen guaranteeing the expenses being compelled to meet a deficit of about \$53,000. Receipts, however, continued to increase from year to year until the orchestra was finally placed on a permanent basis. This was accomplished when Orchestra hall, erected by subscriptions from more than 8,000 persons, was erected at 220 South Michigan avenue, and the organization was provided with a home of its own. The first concert there was given Wednesday evening, Dec. 14, 1904. Theodore Thomas died Jan. 4, 1905, and the orchestra, which until then had been called the Chicago orchestra, was named the Theodore Thomas orchestra. Feb. 24, 1913, the title was changed to the Chicago Symphony orchestra (founded by Theodore Thomas). Frederick Stock, after the death of Mr. Thomas, was made conductor, a position he still holds. The plan of giving two performances a week—a public rehearsal on Friday afternoon and a concert on Saturday evening—has been followed from the beginning. The season consists of twenty-eight weeks, beginning in October and ending in April.

The first officers of the Orchestral association were: N. K. Fairbank, president; C. Norman Fay, vice-president; P. A. McEwan, treasurer and secretary; Milward Adams, manager.

GRAIN AND HAY REPORTING OFFICE.

Location—Board of Trade building.
 Official in Charge—Lester R. Spencer.

In the fall of 1917 the bureau of markets of the United States department of agriculture began a new grain and hay market reporting service in the east central division, including the states of Illinois, Indiana, Ohio, Kentucky and southern Michigan. The country has nine other similar districts. The reports issued give estimates of stocks of wheat, corn, oats and hay in dealers' hands in each district, estimates of the amounts of each of these commodities which will be shipped from stations in each district during the two weeks following the date of the

report, and of amounts which will be shipped to stations in each district during the two weeks following the report. The range of prices at which certain grades of these commodities are being offered for sale for shipment in carload lots at stations in each district on a given date are given, and also the range of prices at which similar grades will be purchased for shipment to these stations on the same date. The reports show the lowest price at which certain grades of grain and hay are being offered for sale in carload lots for shipment from a number of the large markets from which states in the division customarily draw their supplies.

GENERAL INFORMATION.

The Chicago public library is a free public institution, established under the Illinois library law of 1872. It derives its revenue from an annual library tax of approximately one mill. A board of directors of nine members is appointed by the mayor, three annually for terms of three years. The library occupies the site formerly known as Dearborn park, bounded by Michigan avenue, Washington street, Garland court and Randolph street. The cost of the building was about \$2,000,000, including the furniture, book stacks and machinery. There are forty-five branches, six high school branches, 128 delivery stations and fifty deposit stations.

The right of drawing books from the public library belongs to all who reside in the city of Chicago, and also to those who make their homes in the suburbs within the limits of Cook county and are regularly employed in the city. In order to become a book borrower it is necessary only to file an application giving the name and residence of the applicant and bearing the signature of a second person who must be an actual resident of the city, appearing as such in the latest city directory. This person becomes the guarantor to the library for the proper observance of the library regulations on the part of the applicant. These regulations merely provide that books drawn for home use must be returned within the stated period and must not be defaced or injured.

At the close of May 31, 1917, the public library contained 806,172 volumes. The aggregate circulation for the year ending May 31, 1917, was 5,602,806 volumes, which does not include the use of books kept on the open shelves at the main library or its branches or the periodicals or newspapers used in the reading rooms. This use would bring the total recorded book issue to 6,475,321.

Visitors desiring to see the collections under guidance may make appointments with the museum instructors at the office of the director.

MUSEUM.

The Art museum now ranks among the first three or four in the country. It contains excellent examples of the old masters and of the modern painters. There is also a large and comprehensive collection of sculptures, including reproductions of the work of the greatest sculptors, ancient and modern. There is an extensive collection of architectural casts. Other fields of art are represented by collections of etchings, en-

gravings, textiles, oriental art, Egyptian and classical antiquities, etc. There is a constant succession of passing exhibitions, thirty-five or more in a year. All students enjoy the full use of the collections and the library. The number of visitors to the museum during the year ended Dec. 31, 1916, was 922,308.

SCHOOL.

The school of instruction in the practice and theory of art includes departments of painting, sculpture, decorative designing, illustration, architecture and normal instruction. There are day and evening classes for beginners and for advanced pupils and special classes on Saturdays. The instructors number about eighty and the pupils average about 3,000 a year. The principle upon which the school is founded is to maintain in the highest efficiency the severe practice of academic drawing and painting, from life, from the antique and from objects, and around this practice, as a living stem, to group the various departments of art education.

The school is conducted upon the most modern methods and has grown to be the most comprehensive and probably the largest fine arts school in the United States. Distinguished teachers from a distance are called in from time to time. Students may enter at any time. The tuition rates are as follows:

Day School—Registration fee, \$5; full time for term of twelve weeks, \$36; four weeks, \$15; four days a week, full term, \$33; four weeks, \$14; three days a week, full term, \$30; four weeks, \$12; two days a week, full term, \$24; four weeks, \$9; one day a week, full term, \$18; four weeks, \$7.

North side: Clark street line opened March 27, 1883; Wells street line opened same year; Lincoln avenue line opened Jan. 22, 1889; Clybourn avenue line opened May 2, 1891. West side: Madison street line opened July 16, 1890; Milwaukee avenue line opened at same time; Blue Island avenue line opened July 23, 1893.

Electric Cars—South side: First electric line in city began operating Oct. 2, 1890, from 95th street and Stony Island avenue to South Chicago; trolley substituted for horse cars on most of the lines (except cable) in 1893 and 1894 in all divisions of the city and in the suburbs; trolley substituted for cable cars on State street July 22, 1906, and on Cottage Grove avenue Oct. 21, 1906. West side: Trolley cars substituted for cable on Blue Island avenue July 22, 1906, and on Madison street and Milwaukee avenue Aug. 19, 1906. North side: All cables changed to trolley lines Oct. 21, 1906.

Elevated Railways—South side: South side elevated railroad began regular operation on line between Congress street and 39th street June 6, 1892, with steam as motive power; extended to Stony Island avenue in May, 1893; extended to Englewood in 1906 and to Kenwood in 1907; trains began running around loop Oct. 19, 1897; motive power changed to electricity July 27, 1893. West side: Lake street line (Chicago & Oak Park) began running Nov. 6, 1893, with steam as motive power; electricity substituted June 14, 1896; Metropolitan road opened May 20, 1895, with electricity as motive power; began running over loop Oct. 10, 1897; extension of Garfield park and Douglas park lines completed in 1902. North side:

Northwestern line opened for business May 31, 1900, with electricity as motive power; Ravenswood branch opened May 10, 1907; through routing of trains between north and south sides and giving of transfers on all elevated roads begun Nov. 3, 1913.

Merger of Surface Lines—Unified Management—Ordinance passed Nov. 14, 1913, providing for merger and unified management of all surface lines, with through routes, 5 cent fares and transfers to all parts of city; ordinance went into effect Feb. 1, 1914.

STREET RAILWAY FRANCHISE.

Ordinances passed by city council Feb. 4, 1907; vetoed by mayor and passed over veto Feb. 11, 1907; approved by people on referendum vote April 2, 1907.

Systems to be reconstructed and rehabilitated within three years.

City to supervise rehabilitation through board of three engineers.

Life of grant not to extend in any event beyond Feb. 1, 1927.

City to receive 55 per cent and companies 45 per cent of the net profits from the operation of the roads.

Twenty-one through routes specified and provision made for others.

Fares for adults to be 5 cents for continuous trips in one general direction within the present or future city limits.

Transfers to be given at all connecting points on and to all lines except in section on south side between 12th street and the river. (By merger ordinance passed Nov. 14, 1913, transfers are given in all parts of the city.)

Motive power of cars to be electricity applied by the overhead or underground trolley system.

Cars to be of the latest and most approved pattern and to be kept clean and warm and well lighted.

Cars to be operated singly after one year.

Companies to pay \$5,000,000 toward the construction of subways in the downtown section at the city's option.

City given the right to purchase the property of both the present great systems at any time upon giving six months' notice.

ELEVATION OF CHICAGO AND LAKE MICHIGAN.

Mean sea level or mean tide at New York is the standard plane to which all elevations in the United States are referred, and the figures here given are heights above that plane. They are from the official records of the United States lake survey which have been maintained since 1860. The monthly mean surface of Lake Michigan has varied from 533.57 in June, 1886, to 578.93 in December, 1895. The annual mean surface has varied from 532.96 in 1886 to 579.47 in 1896.

The actual fluctuations in water surface from which these means are obtained have a much larger range and the immediate change in a few hours is often as great as two feet. The mean level of Lake Michigan from 1860 to 1914 (the average of all monthly means) was 581.20, and for the period from 1860 to 1875 it was 581.63, indicating that the mean level remains about the same, although the daily, monthly and an-

ual fluctuations may be quite large. The highest known monthly mean was in 1838—584.7—and the lowest was in 1819—578.0—these being somewhat indeterminate. The United States lake survey has adopted as a standard low water for reference of soundings on its charts 578.50, a little higher than the lowest ever known as a monthly mean.

The Chicago city datum is 579.94 and this plane is used in most local works, including the harbor improvements made by the United States. This is about one foot above the lowest monthly mean of recent years and 1.26 feet below the mean level 1860-1914.

For general purposes the level of Lake Michigan should be taken as being somewhere between 581 and 582 feet. The heights of land in Chicago vary from 590 to 652 (Galewood) but the average may be placed at about 600 feet. The downtown section runs from 586 to 593 feet.

CHICAGO SCHOOL CENSUS OF MARCH 27, 1916.

Taken under the supervision of William L. Bodine for the board of education.

TOTAL POPULATION.

Taking the minor population conservative multiple, which proved to be the only one successfully close to the actual federal enumeration of the total population in 1910, Mr. Bodine estimated the total population of all ages in Chicago in 1916 at 2,550,000. This would be an increase of 112,474 as compared with the school census of 1914, which covered all ages and showed a total population of 2,437,526. Mr. Bodine pointed out that the ratio of increase in both the minor and total population had been appreciably retarded in the two years by the decrease in immigration from Europe, by the return of many foreign born parents to take part in the war, by the trend of many families to the suburbs close to Chicago but outside the city limits where they could not be included in the census, and by the growth of apartment houses with limited space.

DEAF, BLIND, CRIPPLED AND ILLITERATE MINORS.

There were in 1916 567 deaf children in the city and 182 minors who were blind, or nearly so. There are 126 more who have visual defects leading to the sightless life.

The city had 645 crippled minors of whom 210 were so incapacitated that they were eligible for transportation service to the crippled children's centers. There were 2,086 so called "subnormal" minors in the entire city, including those feeble-minded, mentally backward or having mental defects. Returns from special divisions in the public schools make a complete count of this class of children possible. Chicago has 221 mutes.

The illiterates over 12 and under 21, mostly between 16 and 21, total 573, who cannot read or write.

RIOT IN JOLIET PRISON.

Rioting, said to have had its origin in the lack of discipline caused by the so called "honor" system and the efforts of certain sentimental organizations, broke out in the Illinois state penitentiary in Joliet June 5, 1917, while the convicts were at breakfast. The disorder soon got beyond the control of the prison guards, and the acting warden, A. L. Bowen, narrowly escaped being killed. Five different fires were started by the prisoners, causing a loss of some \$20,000. The mutiny was quelled only after the arrival of three companies of the 1st Illinois infantry, which had been doing guard duty in the vicinity of Joliet. There was considerable fighting, in the course of which more than a score of soldiers, prison guards and convicts were injured. Don Flaherty, a life convict, died from concussion of the brain when he jumped from a escape from a fire. The rioting was quelled only when the soldiers were getting ready to fire into the mob.

John Stone was executed publicly on the prairie on the south side. William Jackson and Albert Staub were also executed publicly, but on the west side. After that executions were private and took place in the courthouse until 1873, since which time they have taken place in the county jail on the north side. Rafferty was hanged in Waukegan for murder in Chicago. All the executions have been on Fridays except those of Sylvestri, Gilardo, Azzaro, Zephyr Davis and Smith, which occurred on Saturdays.

FREIGHT TUNNELS UNDER CHICAGO.

Underlying nearly all the streets in the central business section of Chicago are sixty miles of tunnels connecting the freight terminals of the railroads with commercial houses. The tunnels are provided with narrow-gauge (2 ft.) electric railroads equipped with electric locomotives and steel cars. These are used chiefly in transporting goods to and from railroad freight yards and in carrying coal to business houses. Excavated and waste material from new buildings is removed through the tunnels and disposed of permitting the work of construction to go on without interruption. In 1914 the Chicago Utilities company, which now owns the tunnel system, had in operation 117 electric motors and 3,000 coal, freight and other cars. In addition it had charge of some 24,000 telephones.

The original franchise for the tunnel system was granted Feb. 20, 1899, to the Illinois Telephone and Telegraph company, which was organized in 1893 by A. G. Wheeler and associates

for the purpose of establishing an independent telephone system. By an amendatory ordinance granted July 15, 1903, the company was given the right to construct and operate a subway system for the transportation of mail matter, newspapers, packages and freight generally. The tunnels are 19 feet below city datum or 33 feet below the surface of the streets, the trunk line tunnels being limited in size to 12 feet 9 inches in width by 14 feet in height, and the smaller ones to 6 feet in width and 7 feet 6 inches in height. Part of the tunnel system was put into operation Aug. 15, 1906, but the whole of it was not in use until Sept. 1, 1907.

The Illinois Telephone and Telegraph company was succeeded in October, 1903, by the Illinois Tunnel company, which was followed in November, 1904, by the Chicago Subway company. The property of the Subway company and underlying concerns was acquired in April, 1912, by the Chicago Utilities company, the authorized capital stock of which is \$53,000,000.

CHICAGO'S BRIDGE SYSTEM.

The first ferry across the river was established in 1823, where the Lake street bridge now is. In 1833 a floating bridge of logs was in operation just north of the present Randolph street bridge. A foot bridge over the north branch was built in 1832 at Kinzie street. The first drawbridge over the main branch of the river was placed at Dearborn street in 1834. In 1854 a pivot bridge was built at Clark street. These and other bridges of that time were built by the persons most directly benefited by them. It was not until 1857 that a bridge was built entirely at the city's expense. This was the structure over the south branch at Madison street. It cost \$30,000. Until 1873 the swing bridges were turned by hand, but in the year named steam power was installed on the Dearborn street structure

and later most of the other bridges in the downtown section were similarly equipped. In 1858 the Rush, Lake and Van Buren street bridges were operated by electric motors. The last named structure, which was opened for traffic in that year, was the first of the Scherzer rolling type. The Halsted street lift bridge, the first and only one of its kind, was opened in 1894 and was operated by steam. It cost the city \$242,880.

In 1917 Chicago had forty-four bridges with movable spans and thirty with fixed spans. There were also thirty-nine viaducts and eight foot bridges. Most of the movable bridges are operated by electricity. The bridges and viaducts had a value of more than \$5,000,000.

FIRE CATASTROPHE IN CHICAGO.

Early Friday morning Feb. 2, 1917, a large tenement house on 14th place and Newberry avenue, Chicago, was wrecked by an explosion of gas. The occupants of the building were asleep at the time and though a number managed to escape to the street many were caught and buried in the ruins. Some were killed instantly, but others were either burned to death or so seriously injured that they died soon after being

taken from the wreckage. A few were found still alive after they had been for hours pinned under heavy beams or planks, with water freezing about them as the weather was intensely cold, the thermometer standing many degrees below zero. After the ruins had been carefully searched it was found that fourteen persons had lost their lives.

FIELD MUSEUM OF NATURAL HISTORY.

President—Stanley Field.
 Vice-Presidents—Martin A. Ryerson, Watson F. Blair.

Director of the Museum and Secretary—Frederick J. V. Skiff.

Treasurer—Solomon A. Smith.

Assistant Secretary and Recorder—D. C. Davies.

The Field Museum of Natural History, established in 1894 at the close of the World's Columbian exposition of 1893, occupies the temporary building erected for fine arts in Jackson park, the exposition site. The founding of a scientific institution of this character in Chicago was made possible by the gift of \$1,000,000 by Marshall Field, who on his death (Jan. 16, 1906) bequeathed the institution a further \$8,000,000, \$4,000,000 for the erection of a permanent building and \$4,000,000 for endowment. In addition \$1,500,000 has been donated by other individuals and there is an annual income from other sources than endowment of about \$25,000. The citizens of Chicago have confirmed legislative provision for the levy of a tax for the maintenance of the museum when a new building shall have been erected, which it is estimated will eventually produce approximately \$100,000 per annum.

Plans have been completed and erection has begun of a new building for the museum near and south of 12th street extended in an easterly direction. The architecture of this building will be ornamental and dignified in character, as befits its location in a public park. The general architecture of the present building in Jackson park has been retained as well as the beautiful effect of the colonnade structure.

The nucleus of the exhibition material was gathered by gift and purchase at the World's Columbian exposition. Most of this material, however, has since been rearranged, readapted or discarded. Several departments created at the organization have been abandoned, until, after the lapse of twenty years and the expenditure of approximately \$6,500,000, the museum is now

divided into four departments—namely, anthropology, botany, geology and zoology. Many expeditions for the purpose of obtaining study, exhibition and exchange material and data have been dispatched to all parts of North America and to different countries. The results of these expeditions, investigations and researches have been published by the museum from time to time, which publications have been distributed to kindred societies and institutions both at home and abroad. An important contribution of \$250,000 by Norman W. Harris was announced in December, 1911, for the extension of the work of the museum into the public schools of Chicago. The plans for carrying out Mr. Harris' wishes were placed in operation in the spring of 1913. The museum has a working library of about 70,000 titles, an extensive exchange system, a fully equipped departmental laboratories, a herbarium of more than 500,000 sheets, study collections in mammals and birds reaching many thousand specimens, a large two story taxidermy section, a well equipped printing shop, illustration studios and assaying and lapidary rooms. In North American ethnology, in the world's mineralogy, in economic botany the museum is particularly prominent, while its series of mounted mammals furnishes examples of advanced museum methods. The present main building covers nine acres and is open to the public on all days except Christmas and Thanksgiving. An admission fee of 25 cents is charged except on Saturdays and Sundays, when admission is free to all. Students, scholars and teachers are admitted free on all days between 9 a. m. and 4 p. m.

The museum is incorporated under state law and the administrative control rests in a board of trustees with president, secretary, etc. The executive of the museum is the director, under whom there are four head curators with divisional assistant curators, preparators, etc. The entire museum records, the accessions system, the historical files, publications and supplies are in charge of a recorder.

RULES OF THE ROAD FOR MOTOR AND OTHER VEHICLES.

[From Chicago police ordinances.]

All vehicles shall keep as close to the right hand curb as prudence and safety shall permit, except when overtaking and passing another vehicle and except when running within car tracks. An overtaken vehicle must at all times be passed on its left side, except that in case of motor vehicles and motorcycles passing street cars or other vehicles when running within the car tracks; in such case such motor vehicle or motorcycle shall not turn to the left into the track reserved for street cars and vehicles moving in the opposite direction, but shall pass to the right of such street car or vehicle so overtaken.

Vehicles upon overtaking any street car which is stopped for the purpose of discharging or taking on passengers must not approach nearer than ten feet of it nor pass it while it is so stopped.

No vehicle, unless in charge of a driver, is permitted to stand more than 30 minutes in any street or alley in the district bounded by Lake street, Wabash avenue, Harrison and Market streets.

Mufflers and horns or bells are required on all automobiles and motorcycles. Light showing license number to be controlled from outside. Headlights must not be so bright as to dazzle or confuse.

No vehicle shall proceed at a speed greater than the law allows and which is safe and proper under the conditions obtaining. The state law prohibits a speed greater than ten miles an hour in business and fifteen miles an hour in residence districts of cities and villages.

No vehicle shall cross any street at a speed exceeding one-half its legal speed.

No vehicle shall emerge from any alley, stable or garage at a pace faster than a walk.

On all thoroughfares the heavy and slow moving vehicles shall, as far as conditions permit, keep to the right, to allow the rapid moving and lighter traffic to proceed independently.

A vehicle meeting another shall turn to the right.

A vehicle turning into another street to the right shall turn the corner as near the right hand curb as possible.

A vehicle turning into another street to the left shall circle around the center of the street intersection.

A vehicle crossing from one side of the street to the other shall keep to the right.

No vehicle shall stop with the left side to the curb.

No vehicle shall stand backed up to the curb except when actually loading or unloading.

No vehicle shall, except in emergencies, stop in any street or highway except near the right hand curb so as not to obstruct a crossing.

No vehicle shall back to make a turn in any street if by so doing it interferes with other vehicles, but shall go around the block or to a street wide enough to turn in without blocking the traffic.

Vehicles will enter north and south alleys and all L-shaped alleys from the north and leave from the south; east and west alleys from the east and leave from the west.

Horse drawn vehicles have the right of way over power driven vehicles, street cars excepted.

Motor vehicles are not permitted to stand within fifteen feet of a hydrant.

No private vehicle shall be permitted to stand or use the space in a public stand except to receive or discharge passengers or merchandise.

No driver of a public vehicle shall seek employment by repeatedly driving his vehicle to and fro in a short space before any theater, hotel, railway station, boat landing or other place of public gathering. Any driver may solicit employment by driving through any public street without stops other than those due to obstructions to traffic and at such speed as not to interfere with traffic, and he may pass and repass theaters, hotels, etc., but must go at least two blocks before turning back.

LOADING ZONES.

Loading zones at which vehicles may stop for the purpose of loading or unloading merchandise destined for or received from near by buildings have been established at the following places:

- West curb of North State north of Randolph.
- West curb of North State north of Washington.
- East curb of Dearborn south of Madison.
- East curb of Dearborn south of Washington.
- East curb of Dearborn south of Randolph.
- West curb of Clark north of Madison.

- North curb of Washington east of LaSalle.
- North curb of Madison east of Dearborn.
- North curb of Madison east of Clark.
- North curb of Madison east of LaSalle.
- South curb of Monroe west of Clark.
- South curb of Monroe west of Dearborn.

The loading zones are the spaces between the curbs and the nearest street car tracks for a distance of not to exceed 100 feet from the corner lot line. Vehicles in passing through loading zones shall do so in single file and keep as close as possible to the curb on the right.

VEHICLES STANDING ON STREET.

No vehicle shall be permitted to stand continuously in one place in any public street or alley in the city of Chicago within the district bounded on the north by the north line of Lake street, on the east by the east line of Wabash avenue, on the south by the south line of Harrison street and on the west by the west line of Market street between the hours of 7 a. m. and 7 p. m. for a longer period than 30 minutes, except at public vehicle stands.

No vehicle shall be permitted to stand on any public street or alley in the city of Chicago upon which street cars are operated within the district bounded on the north by the north line of Lake street, on the east by the east line of Wabash avenue, on the south by the south line of Van Buren street and on the west by the west line of Market street during the hours from 7 a. m. to 10 a. m. and from 4 p. m. to 7 p. m. for a longer period at any one time than will be necessary for such vehicle to load or unload its occupants, baggage or merchandise.

HOUSE NUMBER SYSTEM IN CHICAGO.

The present house number system in Chicago was established by an ordinance passed June 22, 1908, and effective Sept. 1, 1909. This applied to all streets except those between the river, 12th street and the lake. Sept. 20, 1910, the city council passed an amendment to the ordinance making it applicable to the entire city. The change in the business district went into effect April 1, 1911. The system is laid out on two base lines, State street dividing the east and west streets and Madison street the north and south streets. Numbers are assigned on the basis of 800 to the mile or 100 to the prevailing block of 660 feet or one-eighth of a mile.

FLAG DISPLAY DAYS IN CHICAGO.

In accordance with an order issued by Mayor William Hale Thompson May 8, 1915, the American flag should be hoisted on the buildings under the jurisdiction of the city government on all election days and on the following anniversaries:

Feb. 12—Lincoln's birthday.

Feb. 15—Sinking of the Maine.

Feb. 22—Washington's birthday.

April 19—Battle of Lexington.

May 30—Memorial day.

June 14—Flag day.

June 17—Battle of Bunker Hill.

July 4—Independence day.

Oct. 9—Chicago day.

Oct. 12—Columbus day.

Oct. 17—Battle of Saratoga.

Oct. 19—Surrender of Yorktown.

Nov. 25—Evacuation of Yorktown.

On all the foregoing dates the flag should be hoisted at full mast, with the exception of Memorial day and the anniversary of the sinking of the Maine, when it should be at half mast. The hours of displaying the flag are from sunrise to sunset.

By an ordinance passed Feb. 5, 1917, by the Chicago city council, the playing of the "Star Spangled Banner" in public places in any way except as an entire and separate composition and without embellishments of national or other melodies is prohibited. The playing of the air as dance music or for an exit march is also prohibited. Violation of the ordinance by proprietors or performers is punishable by a fine of \$100.

RIPARIAN RIGHTS FOR LINCOLN PARK.

By an act of congress approved March 4, 1917, the secretary of the treasury was authorized to transfer to the Lincoln park commissioners in Chicago the riparian rights of the United States as the owner of land fronting on Lake Michigan and occupied as the site of the United States marine hospital. He was also empowered to undertake or conform to any

proceedings provided for under the laws of Illinois enacted for the purpose of enabling park commissioners to enlarge parks by reclaiming submerged lands under the waters of Lake Michigan and for the establishment and defining of the boundary line between the lands of shore owners and the park lands of such commissioners.

"The Torrens System is of benefit to the poor man who needs to save money, to the business man whose time is money and to all men who wish to save both time and money."

ROBERT E. L. BROOKS,

Member Cook County Real Estate Board.

TORRENS SYSTEM OF REGISTERING LAND TITLES

By JOSEPH F. HAAS,

Registrar of Titles for Cook County.

This system provides for the establishment of the status of the legal title to real estate by a decree of Court and, also, provides for the issuance of a "Certificate of Title" to the property, when so established, by a Public Officer, the Recorder of Deeds (Registrar of Titles), without delay and at small expense to owners.

It simplifies Real Estate transfers and affords absolute security for real estate owners. Lawyers and real estate dealers endorse and recommend its use. Compared with the abstract and guarantee policy systems, its cost is much less and its benefits and protection are much greater.

The initial registration is \$25.00 and up.

The purchaser pays the transfer fee of \$3.00 when the property is sold.

The certificate of title issued by the Recorder of Deeds (Registrar of Titles) under the Land Registration Act is the obligation of Cook County, and also has back of it the Indemnity Fund of \$1.00 per thousand on the value of all registered real estate. The Certificate is based upon the Court Decree. It is not an insurance policy limited in amount or otherwise, but is the guarantee of Cook County. An examination of the Certificate tells instantly who the owner is and what the condition of the title is. Sales can be made when the property is once registered, and a new Certificate issued to the purchaser without delay and at an expense of \$3.00.

A Remarkable Record

IN recognition of the results obtained from safety measures in practice on the Chicago Elevated Railroads, the American Museum of Safety in 1916 awarded "Honorable Mention" to the Chicago Elevated Railroads in the Brady Medal contest among electric railroads.

Nine years without one fatal accident

One billion five hundred millions of passengers—equivalent nearly to the population of the world—have been carried by the Chicago Elevated Railroads during nine years without a single fatal accident while on their trains.

Safety first, last and always—as instanced by the recent installation of 250 new all-steel cars—is the constant watchword of the Elevated management. Civic pride alone, aside from individual interest, should induce Elevated patrons to co-operate in the elimination and prevention even of minor accidents.

Why Daily News "Want Ads" Are Productive

With certain few exceptions the "want ad" is without value outside the city in which it is published.

The "want ad" is generally a local appeal to local people.

Therefore the ordinary "want ad" depends for its effectiveness entirely upon the city circulation of the paper in which it is published.

Of the more than a million readers of THE DAILY NEWS (estimating three readers to the copy) over 92 per cent live in Chicago and its immediate suburbs.

THE DAILY NEWS has more readers in Chicago than any other newspaper, daily or Sunday.

Here, then, is the explanation of the tremendous producing power of DAILY NEWS "want ads."

To make known your Chicago wants to Chicago people put your advertisement in THE DAILY NEWS "classified" columns—generally recognized as Chicago's "WANT AD" DIRECTORY.

If you want to hire help for home or business; if you want employment; if you want to sell or to buy real estate; if you have anything to exchange; if you want to locate a missing person or to make an announcement; or if you have any want of any kind—make that want known through the "want ad" columns of
